

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON (CLINICAL POSTING)		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN22.4Describe anatomical basis of ischaemic heart disease (integration with anatomy) AN22.7Mention the parts, position and arterial supply of the conducting system of heart (integration with anatomy) (SGD/Tutorial)	IM1.11Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity including: measurement of pulse, blood pressure and respiratory rate, jugular venous forms and pulses, peripheral pulses, conjunctiva and fundus, lung, cardiac examination including palpation and auscultation with identification of heart sounds and murmurs, abdominal distension and splenic palpation (Clinical Postings)		SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	PS 2.1 Mental Health Define stress and describe its components and causes	FM 3.1-Identification-Corpus Delicti, Establishment of Identity of living persons-Race,sex,statue age estimation,odontology,bite mark,MLI of age
TUESDAY	PY5.5Describe the physiology of electrocardiogram (E.C.G), its applications and the cardiac axis (integration with physiology) PY5.6Describe abnormal ECG, arrhythmias, heart block and myocardial infarction (integration with physiology) (SGD/Tutorial)	IM1.10Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure including: presenting complaints, precipitating and exacerbating factors, risk factors exercise tolerance, changes in sleep patterns, features suggestive of infective endocarditis (Clinical Postings)		EN 4.1 Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of otalgia EN 4.2Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of diseases of the external ear	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 25 PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development, PE1.2 Discuss and describe the patterns of growth in infants, children and adolescents PE1.3 Discuss and describe the methods of assessment of growth including use of WHO and Indian national standards. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents	FM 3.1-Identification-Corpus Delicti, Establishment of Identity of living persons-Race,sex,statue age estimation,odontology,bite mark,MLI of age
WEDNESDAY	IM1.26Develop document and present a management plan for patients with heart failure based on type of failure, underlying aetiology (SGD/Tutorial)	IM1.12Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure (Clinical Postings)		OG 1.2 Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit (Intergration with Paediatrics and Community Medicine)	IM24.15 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of vision and visual loss in the elderly	CM 8.1 Describe and discuss the epidemiological and control measures for airborne diseases
THURSDAY	IM1.27Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease (SGD/Tutorial)	IM1.13Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade (Clinical Postings)		IM9.1Define, describe and classify anemia based on red blood cell size and reticulocyte count IM9.2Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anemia	Pandemic Module 3.1 (Community Medicine) Outbreak Management including Quarantine, Isolation Contact Tracing - 1	CM 8.3 Enumerate and describe disease specific National Health Programs (ARI/Measles)
FRIDAY	IM1.28Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and acyanotic heart disease (SGD/Tutorial)	IM1.14Demonstrate and measure jugular venous distension (Clinical Postings)			OP1.2 Define, classify and describe the types and methods of correcting refractive errors surgery	CT 1.1 Describe and discuss the epidemiology of tuberculosis and its impact on work, life and economy of India
SATURDAY	IM1.29Elicit document and present an appropriate history, demonstrate correctly general examination, relevant clinical findings and formulate document and present a management plan for an adult patient presenting with a common form of congenital heart disease (SGD/Tutorial)	IM1.15Identify and describe the timing, pitch quality conduction and significance of precordial murmurs and their variations (Clinical Postings)		AETCOM MODULE Module 3.1: The foundations of communication - 3 (Ophthalmology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN24.1Mention the blood supply, lymphatic drainage and nerve supply of pleura, extent of pleura and describe the pleural recesses and their applied anatomy (integration with anatomy) AN24.2Identify side, external features and relations of structures which form root of lung & bronchial tree and their clinical correlate (integration with anatomy)	IM3.4Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk (Clinical Postings)		SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders	PS 2.2.Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance	FM 3.1-Identification-Corpus Delicti, Establishment of Identity of living persons-Race,sex, stature age estimation,odontology,bite mark,MLI of age
TUESDAY	BI6.8Discuss and interpret results of Arterial Blood Gas (ABG) analysis in various disorders (integration with Biochemistry) (SGD/Tutorial)	IM3.5Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease (Clinical Postings)		EN 4.3Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of AOM EN 4.4Demonstrate the correct technique to hold otoscope, visualize and assess the mobility of the tympanic membrane, interpret, and diagrammatically represent the findings EN 4.5Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of OME	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 26 PE2.1 Discuss the etio-pathogenesis, clinical features and management of a child who fails to thrive,PE2.4 Discuss the etio-pathogenesis, clinical features and management of a child with short stature	FM 3.1-Identification-Corpus Delicti, Establishment of Identity of living persons-Race,sex, stature age estimation,odontology,bite mark,MLI of age
WEDNESDAY	PA26.1Define and describe the etiology, types, pathogenesis, stages, morphology and complications of pneumonia (Integration with Pathology) (SGD/Tutorial)	IM3.6Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation (Clinical Postings)		OG 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy. (Integration with Radio diagnosis)	AN41.1 Describe & demonstrate parts and layers of eyeball	CM 8.3 Enumerate and describe disease specific National Health Programs ( TB )
THURSDAY	PA26.3Define and describe the etiology, types, pathogenesis, stages, morphology and complications and evaluation of Obstructive airway disease (OAD) and bronchiectasis (Integration with Pathology) (SGD/Tutorial)	CT2.8Elicit document and present a medical history that will differentiate the aetiologies of obstructive airway disease, severity and precipitants (Clinical Postings)		IM9.8Describe and discuss the various tests for iron deficiency IM9.12Describe, develop a diagnostic plan to determine the aetiology of anemia	Pandemic Module 3.1 (Community Medicine) Outbreak Management including Quarantine, Isolation Contact Tracing - 2	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (ARI/ Pneumonia)
FRIDAY	PA26.4Define and describe the etiology, types, pathogenesis, stages, morphology microscopic appearance and complications of tuberculosis (Integration with Pathology) (SGD/Tutorial)	CT2.9Perform a systematic examination that establishes the diagnosis and severity that includes measurement of respiratory rate, level of respiratory distress, effort tolerance, breath sounds, added sounds, identification of signs of consolidation pleural effusion and pneumothorax (Clinical Postings)			OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	CT 1.2 Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evaluation and natural history of pulmonary and extrapulmonary forms(including lymph node, bone and CNS)
SATURDAY	PA26.6Define and describe the etiology, types, exposure, genetics environmental influence, pathogenesis, stages, morphology, microscopic appearance,metastases and complications of tumors of the lung and pleura (Integration with Pathology) (SGD/Tutorial)	CT2.14Enumerate the indications for and interpret the results of : pulse oximetry, ABG, Chest Radiograph (Clinical Postings)		AETCOM MODULE Module 3.1: The foundations of communication - 3 (Ophthalmology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	BI11.17 (part of) Explain the basis and rationale of biochemical tests done in the following conditions: jaundice, liver diseases (Integrated with biochemistry) PA25.1Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia (Integrated with Pathology)	IM5.9Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes clinical presentation, risk factors, drug use, sexual history, vaccination history and family history (Clinical Postings)		SU27.4 Describe the types of gangrene and principles of amputation	PS 3.6 Describe and discuss biological, psychological and social factors and their interactions in the causation of mental disorders	FM 3.2-Identification-Trichology,anthropometry, foot print, identification marks, tattoo,finger print,poroscopy,superimposition
TUESDAY	IM5.14Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology PA25.3Describe the etiology and pathogenesis of viral and toxic hepatitis: distinguish the causes of hepatitis based on the clinical and laboratory features. Describe the pathology, complications and consequences of hepatitis (Integration with Pathology)(SGD/Tutorial)	IM5.10Perform a systematic examination that establishes the diagnosis and severity that includes nutritional status, mental status, jaundice, abdominal distension ascites, features of portosystemic hypertension and hepatic encephalopathy (Clinical Postings)		EN 4.7Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of mucosal type of COM	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 27 PE30.4 Discuss the etio-pathogenesis, classification, clinical features, and management of Microcephaly in children, PE30.10 Discuss the etio-pathogenesis, clinical features and management of Mental retardation in children	FM 3.2-Identification-Trichology,anthropometry, foot print, identification marks, tattoo,finger print,poroscopy,superimposition
WEDNESDAY	IM5.16Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy PA25.5Describe the etiology, pathogenesis and complications of portal hypertension (Integration with Pathology)(SGD/Tutorial)	IM9.4Perform a systematic examination that includes : general examination for pallor, oral examination, DOAP session of hyper dynamic circulation, lymph node and splenic examination (Clinical Postings)		OG 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigation;principles of management of hyperensive disorders of pregnancy and eclampsia, complications of eclampsia (integration with General Medicine/Neurology)	OP9.3 Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (Chicken pox/Small pox/Measles/Rubella)
THURSDAY	IM5.17Enumerate the indications, precautions and counsel patients on vaccination for hepatitis (SGD/Tutorial)	IM15.5Perform, demonstrate and document a physical examination based on the history that includes general examination, volume assessment and appropriate abdominal examination (Clinical Postings)		IM9.14Describe the national programs for anemia prevention IM9.17Describe the indications for blood transfusion and the appropriate use of blood components	Pandemic Module 3.1 (Community Medicine) Outbreak Management including Quarantine, Isolation Contact Tracing - 3	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (Mumps/Meningococcal meningitis)
FRIDAY	IM5.13Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease (SGD/Tutorial)	IM5.14Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology (Clinical Postings)			OP2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis	CT 1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions like diabetes on the natural history of tuberculosis
SATURDAY	IM5.18Enumerate the indications for hepatic transplantation (SGD/Tutorial)	IM5.17Enumerate the indications, precautions and counsel patients on vaccination for hepatitis (Clinical Postings)		AETCOM MODULE Module 3.1: The foundations of communication - 3 (Ophthalmology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN57.4Enumerate ascending & descending tracts at mid thoracic level of spinal cord (Integration with anatomy) AN57.5Describe anatomical basis of syringomyelia (Integration with anatomy) (SGD/Tutorial)	IM17.4Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of meningitis IM17.5Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation IM17.6Choose and interpret diagnostic testing based on the clinical diagnosis including imaging (Clinical Postings)		SU27.5 Describe the applied anatomy of venous system of lower limb	PS 3.7 Organic Psychiatric Disorders Enumerate and describe common organic psychiatric disorders, magnitude, etiology and clinical features	FM 2.11-Autopsy procedures-Postmortem examination,types of autopsies, aims & objectives of postmortem examination
TUESDAY	AN58.4Describe anatomical basis & effects of medial & lateral medullary syndrome (Integration with anatomy) (SGD/Tutorial)	IM17.5Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation (Clinical Postings)		EN 4.10Observe and describe indications for, and steps involved in myringotomy and myringoplasty	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 28 PE1.5 Define development and discuss the normal developmental mile stones with respect to motor, behaviour, social, adaptive and language, PE1.6 Discuss the methods of assessment of development	FM 2.12-Legal requirements to conduct postmortem examination and procedures to conduct medicolegal examination
WEDNESDAY	AN62.2Describe & demonstrate surfaces, sulci, gyri, poles, & functional areas of cerebral hemisphere (Integration with anatomy)(SGD/Tutorial)	IM17.6Choose and interpret diagnostic testing based on the clinical diagnosis including imaging (Clinical Postings)		OG 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of anemia in pregnancy (Integration with General Medicine)	OP6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (Diphtheria/Pertusis)
THURSDAY	IM18.4Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness IM18.9Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion (SGD/Tutorial)	IM18.3Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident (Clinical Postings)		IM9.18Describe the precautions required necessary when performing a blood transfusion IM9.7Describe and discuss the meaning and utility of various components of the hemogram	Pandemic Module 3.1 (Community Medicine) Outbreak Management including Quarantine, Isolation Contact Tracing - 4	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (SARS/MERS/H1N1)
FRIDAY	IM17.7Enumerate the indications and describe the findings in the CSF in patients with meningitis (SGD/Tutorial)	IM18.5Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history IM18.6Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion IM18.7Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech (Clinical Postings)			OP3.2 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma OP3.3Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh	CT 1.4 Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs
SATURDAY	AN61.3Describe anatomical basis & effects of Benedict's and Weber's syndrome (Integration with anatomy) (SGD/Tutorial)	Assessment & Feedback		AETCOM MODULE Module 3.1: The foundations of communication - 3 (Ophthalmology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	SU18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections (SGD/Tutorial)	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan- (history Taking) (Clinical Postings)		SU21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	PS 3.8 Enumerate and describe the essential investigations to patients with organic psychiatric disorders PS 3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders PS 3.11 Enumerate the appropriate conditions for specialist referral in patients with psychiatric disorders	FM 2.13-Describe & discuss obscure autopsy
TUESDAY	SU18.2 Classify skin tumors, Differentiate different skin tumors and discuss their management. (SGD/Tutorial)	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. ( Examination ) (Clinical Postings)		EN 4.12Elicit document, and present a correct history, demonstrate, and describe the clinical features choose the correct investigations, and describe the principles of management of hearing loss EN 4.14Describe the clinical features, investigations, and principles of management of sudden sensorineural hearing loss (SSNHL) EN 4.15 Describe the clinical features, investigations, and principles of management of noise induced hearing loss (NIHL)	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 29 PE3.1 Define, enumerate and discuss the causes of developmental delay and disability including intellectual disability in children PE3.2 Discuss the approach to a child with developmental delay, PE3.5 Discuss the role of the child developmental unit in management of developmental delay, PE3.6 Discuss the referral criteria for children with developmental delay	FM 2.14-Examination of clothing,preservation of viscera on postmortem examination for chemical analysis & medicolegal purposes, postmortem artefacts
WEDNESDAY	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. (SGD/Tutorial)	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan. (Clinical Postings)		OG 12.3 Define, Classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and the foetus and the management during pregnancy and labour, and complications of diabetes in pregnancy. (Integration with General Medicine)	PY10.17 Describe and discuss functional anatomy of eye, physiology of image formation, physiology of vision including colour vision, Refractive errors, colour blindness, Physiology of pupil and light reflex	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (TB)
THURSDAY	SU19.1 Describe the etiology and classification of cleft lip and palate (SGD/Tutorial)	SU19.1 Describe the etiology and classification of cleft lip and palate (Vertical integration Anatomy) (Clinical Postings)		IM9.11Describe the indications and interpret the results of a bone marrow aspirations and biopsy IM9.21Determine the need for specialist consultation	Pandemic Module 3.1 (Community Medicine) Outbreak Management including Quarantine, Isolation Contact Tracing - 5	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for airborne diseases (Anthrax/ Pneumonic Plague)
FRIDAY	SU19.2 Describe the Principles of reconstruction of cleft lip and palate (SGD/Tutorial)	SU19.2 Describe the Principles of reconstruction of cleft lip and palate ( Vertical Integration Omfs) (Clinical Postings)		Assesment and Feedback Surgery	OP2.7 Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours	CT 1.12 Enumerate the indications for tests including serology , special cultures and polymerase chain reaction and sensitivity testing
SATURDAY	SU20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer. (SGD/Tutorial)(Integration with ENT)	SU20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer. (Vertical Integration Ent) (Clinical Postings)		AETCOM MODULE Module 3.1: The foundations of communication - 3(Ophthalmology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment	SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment (Oropharyngeal carcinoma)(Clinical Postings)		SU21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands	PS 4.1 Substance Use Disorders Describe the magnitude and etiology of alcohol and substance use disorders PS 4.4 Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy PS 4.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in alcohol and substance abuse PS 4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders	FM 2.17-Exhumation
TUESDAY	SU22.1 Describe the applied anatomy and physiology of thyroid (SGD/Tutorial)	SU22.1 Describe the applied anatomy and physiology of thyroid (Vertical integration Human Anatomy and Physiology)(Clinical Postings)		EN 4.16Observe and describe the indications for, and steps involved in the performance of pure tone audiometry EN 4.17Enumerate the indications and interpret the results of an audiogram Indications and interpretation of pure tone audiometry	Paediatrics Tutorials/Seminars/Integrated Teaching Hours 30 PE3.8 Discuss the etio-pathogenesis, clinical presentation and multidisciplinary approach in the management of Cerebral palsy	FM 2.35 -Professionalism while conducting autopsy in medicolegal situations,interpretation of findings and making inference/opinion,collection preservation & dispatch of evidences
WEDNESDAY	SU22.2 Describe the etiopathogenesis of thyroidal swellings (SGD/Tutorial)	SU22.2 Describe the etiopathogenesis of thyroidal swellings (Vertical Integration Pathology )(Clinical Postings)		OG 12.4 Define classify and describe the etiology , pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labour, and complications of heart diseses in pregnancy (Integration with General Medicine/Cardiology)	PY10.18 Describe and discuss the physiological basis of lesion in visual pathway	CM 8.1 Describe and discuss the epidemiological and control measures for waterborne and food borne diseases
THURSDAY	SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discus the differential diagnosis and their management (SGD/Tutorial)	SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discus the differential diagnosis and their management (Bedside Clinics /Skills lab (Thyroid swelling))(Clinical Postings)(Clinical Postings)		IM10.2Classify, describe and differentiate the pathophysiologic causes of acute renal failure IM10.3Describe the pathophysiology and causes of pre renal ARF, renal and post renal ARF	Pandemic Module 3.2 (Community Medicine) Interdisciplinary Collaboration, Principles of Public Health administration, Health Economics, International Health - 1	CM 8.3 Enumerate and describe disease specific National Health Programs (ADD/ Polio)
FRIDAY	SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer (SGD/Tutorial)	SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer (Clinical postings)			OP3.3 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis	CT 1.13 Describe and discuss the origin, indications, technique of administration , efficacy and complications of BCG vaccine
SATURDAY	SU22.5 Describe the applied anatomy of parathyroid (SGD/Tutorial)	VSU22.5 Describe the applied anatomy of parathyroid (Vertical Integration Human Anatomy ) (Clinical Postings)		SDL OP2.7 Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumour	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management (Examination of Neck other than thyroid swellings) (Clinical Postings)		SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	Psychotic Disorders PS 5.1 Classify and describe the magnitude and etiology of schizophrenia and other psychotic disorders PS 5.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy	FM 5.1 & 5.2-Classify mental illness including post traumatic disorder,Delusions,hallucinations,illusion,lucid interval & obsessions
TUESDAY	SU23.1 Describe the applied anatomy of adrenal glands (SGD/Tutorial)	SU23.1 Describe the applied anatomy of adrenal glands (examination of abdomen -skills lab/Simulation)(Clinical Postings)		EN 4.25Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal polyps	PE4.1 Discuss the causes and approach to a child with scholastic backwardness, PE4.2 Discuss the etiology, clinical features, diagnosis and management of a child with Learning Disabilities	FM 5.3,5.4 & 5.5-Civil & criminal responsibilities, True & feigned insanity,Delirium tremens
WEDNESDAY	SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland (SGD/Tutorial)	SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland (Examination of Chronic Abdomen)(Clinical Postings)		OG 12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy (Integration with General Medicine/Gastro)	OP3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for waterborne and food borne diseases(Hep A, E)
THURSDAY	SU23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors (SGD/Tutorial)	SU23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors (examination of Chronic Abdomen- Abdominal mass)(Clinical Postings)		IM10.4Describe the evolution, natural history and treatment of ARF IM10.25Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis IM10.1Define, describe and differentiate between acute and chronic renal failure	Pandemic Module 3.2 (Community Medicine) Interdisciplinary Collaboration, Principles of Public Health administration, Health Economics, International Health - 2	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for waterborne and food borne diseases( Polio)
FRIDAY	SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis (SGD/Tutorial)	SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis (Complications of acute pancreatitis-small group discussion/Seminar)(Clinical Postings)			OP3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh	CT 1.14 Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, contraindications, interactions and adverse reactions.
SATURDAY	SU24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours (SGD/Tutorial)	SU24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours( Obstructive Jaundice-small group discussion )(Clinical Postings)		SDL OP2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	SU24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors (SGD/Tutorial)	SU24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors (Bed side Clinics)		SU26.3 Describe the clinical features of mediastinal diseases and the principles of management	Other Psychotic Disorders PS 5.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in schizophrenia PS 5.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders	FM 5.6-Indian Mental Health Act
TUESDAY	SU25.1 Describe applied anatomy and appropriate investigations for breast disease (SGD/Tutorial)	SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent		EN 4.26Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of adenoids	PE4.3 Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD)	FM 5.6-Indian Mental Health Act
WEDNESDAY	SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast (SGD/Tutorial)	SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast (Examination of breast)		OG 17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess (Integrated with surgery)	AN30.5 Explain effect of pituitary tumours on visual pathway	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for waterborne and food borne diseases( ADD)
THURSDAY	SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast. (SGD/Tutorial)	SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast. (Vertical integration Pathology)		IM10.5Describe and discuss the aetiology of CRF IM10.6Stage Chronic Kidney Disease IM10.7Describe and discuss the pathophysiology and clinical findings of uraemia	Pandemic Module 3.2 (Community Medicine) Interdisciplinary Collaboration, Principles of Public Health administration, Health Economics, International Health - 3	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for waterborne and food borne diseases( Typhoid/Paratyphoid)
FRIDAY	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast (SGD/Tutorial)	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast (Vertical integration Forensic medicine)			OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon	CT 1.17 Define criteria for the cure of Tuberculosis ; decribe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimens.
SATURDAY	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (SGD/Tutorial)	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease		SDL OP6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations(TB)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OG 8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors. (Integrated with community Medicine)(SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case Discussion OG 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history (Clinical Postings)		SU27.5 Describe the applied anatomy of venous system of lower limb	Depression PS 6.1 Classify and describe the magnitude and etiology of depression PS 6.4 Describe the treatment of depression including behavioural and pharmacologic therapy PS 6.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in depression PS 6.7 Enumerate the appropriate conditions for specialist referral in patients with depression	FM 6.1 & 6.2-Locard's principle of exchange,body fluids,sample collection, preservation, labelling, dispatch & reporting
TUESDAY	OG 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case Discussion OG 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history(Clinical Postings)		EN 4.27 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of allergic rhinitis EN 4.28 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of vasomotor rhinitis	PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism, PE4.5 Discuss the role of Child Guidance clinic in children with Developmental problems	FM-6.3 & 7.1-Forensic science laboratory,DNA profiling,facial reconstruction,polygraph,narco analysis,brain mapping,digital autopsy,virtual autopsy,imaging technologies
WEDNESDAY	OG 9.1 Classify, define and discusses the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic (Integrated with Forensic Medicine) (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion OG 35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal)(Clinical Postings)		OG 18.4 Describe the principles of resuscitation of the newborn and enumerate the common problems encountered (Integrarated with Paediatrics/Neonatology)	OP7.1 Describe the surgical anatomy and the metabolism of the lens	CM 8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for waterborne and food borne diseases (Cholera/ Dysentry/ Shigellosis)
THURSDAY	OG 2.1 Describe and discuss the development and anatomy of the female reproductive tract, relationship to other pelvic organs, applied anatomy as related to Obstetrics and Gynaecology (Integrated with Human Anatomy)(SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab OG 8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being (Clinical Postings)		IM10.8Classify, describe and discuss the significance of proteinuria in CKD IM10.26Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidism IM10.9Describe and discuss the pathophysiology of anemia and hyperparathyroidism in CKD	Pandemic Module 3.2 (Community Medicine) Interdisciplinary Collaboration, Principles of Public Health administration, Health Economics, International Health - 4	CM 8.1 Describe and discuss the epidemiological and control measures applicable to soil helminths
FRIDAY	OG 4.1 Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis (Integrated with Human Anatomy)(SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion-Abortion OG 9.1 Classify, define and discusses the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic (Clinical Postings)			OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract	CT 2.1 Define and classify obstructive airway disease
SATURDAY	OG 14.1 Enumerate and discuss the diameters of maternal pelvis and types (Integrated with Human Anatomy)(SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab OG 8.5 Describe and demonstrate pelvic assessment in a model (Clinical Postings)		SDL OP6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OG 5.1 Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	9-11 OPD/Theatre 11-12 Case discussion OG 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy		SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	Bipolar Disorders PS 7.1 Classify and describe the magnitude and etiology of bipolar disorders PS 7.4 Describe the treatment of bipolar disorders including behavioural and pharmacologic therapy PS 7.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in bipolar disorders PS 7.7 Enumerate the appropriate conditions for specialist referral in patients with bipolar disorders	FM 3.13-Sexual offences,Rape 375 & 376 IPC with recent amendments
TUESDAY	OG 30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	9-11 OPD/Theatre 11-12 Case discussion OG 30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS		EN 4.30 Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles and management of epistaxis	PE5.1 Describe the clinical features, diagnosis and management of thumb sucking, PE5.2 Describe the clinical features, diagnosis and management of Feeding problems, PE5.3 Describe the clinical features, diagnosis and management of nail biting, PE5.4 Describe the clinical features, diagnosis and management of Breath Holding spells	FM 3.14-Examination of victim of rape,preparation of report,framing opinion, preservation & dispatch of trace evidences
WEDNESDAY	OG 32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.(SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion OG 24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management		OG 33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment (Integrated with Community Medicine)	AN31.3 Describe anatomical basis of Horner's syndrome	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to soil helminths(Dracunculiasis/ Ascariasis/ Amoebiasis)
THURSDAY	OG 32.2 Enumerate the causes of postmenopausal bleeding and describe its management (SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab OG 37.5 Observe and assist in the performance of Endometrial aspiration - endocervical curettage (EA-ECC)		IM10.10Describe and discuss the association between CKD glycemia and hypertension IM10.11Describe and discuss the relationship between CAD risk factors and CKD and in dialysis	Pandemic Module 3.2 (Community Medicine) Interdisciplinary Collaboration, Principles of Public Health administration, Health Economics, International Health - 5	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to soil helminths(Giardiasis/ Trichuriasis/ Anchylostomiasis)
FRIDAY	OG 28.3 Describe the principles of ovulation induction (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion OG 28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques			OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration	CT 2.2 Describe and discuss the epidemiology , risk factors and evolution of obstructive airway disease
SATURDAY	OG 27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease (SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab OG 19.4 Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment		SDL OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OG 27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	9-11 OPD/Theatre 11-12 Case discussion-PID OG 27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease		SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	Anxiety Disorders PS 8.1 Enumerate and describe the magnitude and etiology of anxiety disorders PS 8.4 Describe the treatment of anxiety disorders including behavioural and pharmacologic therapy PS 8.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in anxiety disorders PS 8.7 Enumerate the appropriate conditions for specialist referral anxiety disorders	FM 3.15-Examination of accused & victim of sodomy,preparation of report,framing opinion,preservation & dispatch of evidences
TUESDAY	OG 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion-Amenorrhea OG 25.1 Describe and discuss the causes of primary and secondary (Clinical Postings) amenorrhea, its investigation and the principles of management.		EN 4.33 Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles and management of acute and chronic sinusitis	PE5.5 Describe the clinical features, diagnosis and management of temper tantrums, PE5.6 Describe the clinical features, diagnosis and management of Pica, PE5.7 Describe the clinical features, diagnosis and management of Fussy infant, PE5.9 Discuss the etiology, clinical features and management of Encopresis	FM 3.15-Examination of accused & victim of sodomy,preparation of report,framing opinion,preservation & dispatch of evidences
WEDNESDAY	OG 23.3 Enumerate the causes of precocious puberty (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion OG 25.1 Describe and discuss the causes of primary and secondary (Clinical Postings) amenorrhea, its investigation and the principles of management.		OG 20.3 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) Act 1994 & its amendments OG 20.2 In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy (Integrated with Forensic Medicine)	PY10.19 Describe and discuss auditory & visual evoke potentials	CM 8.1 Describe and discuss the epidemiological and control measures applicable to zoonotic diseases
THURSDAY	OG 22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management (SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab-Gynaecological Examination OG 35.2 Arrive at a logical provisional diagnosis after examination.(Clinical Postings)		IM10.27Describe and discuss the indications for renal dialysis IM10.28Describe and discuss the indications for renal replacement therapy	Pandemic Module- 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 1	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to zoonotic diseases(Rabies)
FRIDAY	OG 9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion-Ectopic Pregnancy OG 9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management (Clinical Postings)			OP4.4 Enumerate the causes and discuss the management of dry eye	CT 2.3 Enumerate and describe the causes of acute episodes in patients with obstructive airway disease
SATURDAY	OG 8.7 Enumerate the indications for and types of vaccination in pregnancy (SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab-Papsmear OG 33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment (Clinical Postings)		SDL OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)-Childhood blindness	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OG 27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	9-11 OPD/Theatre 11-12 Case discussion- OG 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.		SU27.8 Demonstrate the correct examination of the lymphatic system	Stress Related Disorders PS 9.1 Enumerate and describe the magnitude and etiology of stress related disorders PS 9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy PS 9.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in stress related disorders PS 9.7 Enumerate the appropriate conditions for specialist referral in stress related disorders	FM 3.16-Sexual offences-Adultery,unnatural sexual offences,incest,lesbianism,buccal coitus, bestiality,indecent assault,preparation of report,framing opinion & dispatch of trace evidences
TUESDAY	OG 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae(Integrated with General Surgery) (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion -OG 12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy (Clinical Postings)		EN 4.35Describe the clinical features, investigations, and principles of management of tumors of nasopharynx	PE5.8 Discuss the etiology, clinical features and management of Enuresis, PE5.10 Discuss the role of child guidance clinic in children with behavioural problems and the referral criteria	FM3.17-Sexual perversions- Fetishism,transvestism,voyurism,sadism,necrophagia,masochism,exhibiti onism,frotteurism, necrophilia
WEDNESDAY	OG 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion- OG 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy (Clinical Postings)		OG 3.1 Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	OP4.5 Enumerate the causes of corneal blindness	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to zoonotic diseases(Plague/Lepto)
THURSDAY	OG 24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management (SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab OG 37.4 Observe and assist in the performance of Dilatation & Curettage (D&C)(Clinical Postings)		IM5.1Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia IM5.2Describe and discuss the aetiology and pathophysiology of liver injury IM5.3Describe and discuss the pathologic changes in various forms of liver disease IM5.7Enumerate and describe the causes and pathophysiology of drug induced liver injury	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 2	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to zoonotic diseases(NIPAH)
FRIDAY	OG 28.2 Enumerate the assessment and restoration of tubal latency (SGD/Tutorial)	9-11 OPD/Theatre 11-12 Case discussion-Infertility OG 28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques (Clinical Postings)			OP4.6 Enumerate the indications and the types of keratoplasty	CT 2.4 Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea
SATURDAY	OG 13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.(SGD/Tutorial)	9-11-OPD/Ward posting 11-12-Skill lab -Demonstrate Lie presentation position OG 14.2 Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management (Clinical Postings)		AETCOM MODULE Module 3.3: The foundations of communication - 4(Otorhinolaryngology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PE1.3.Discuss and describe the methods of assessment of growth/ including use of WHO and Indian national standards. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents (SGD/Tutorial)	PE1.4-Perform Anthropometric measurements, document in growth charts, and Interpret (Clinical Postings)		SUZ8.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	Somatoform Disorders PS 10.1 Enumerate and describe the magnitude and etiology of somatoform dissociative and conversion disorders PS 10.4 Describe the treatment of somatoform disorders including behavioural, psychosocial and pharmacologic therapy PS 10.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in somatoform, dissociative and conversion disorders PS 10.7 Enumerate the appropriate conditions for specialist referral in patients with somatoform, dissociative and conversion disorders	FM 3.18-Anatomy of male & female genitalia,MLI of hymen,defloartion,legitimacy
TUESDAY	PE1.5 Define development and discuss the normal developmental milestones with respect to motor, behaviour, social, adaptive and language (SGD/Tutorial)	PE1.7-Perform Developmental assessment and Interpret (Clinical Postings)		EN 4.23 Describe the clinical features, investigations, and principles of management of deviated nasal septum EN 4.22 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal obstruction	PE9.1 Describe the age related nutritional needs of infants, children and adolescents including micronutrients and vitamins, PE9.2 Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents, PE9.3 Explains the Calorific value of common Indian foods	FM 3.19-MLI of pregnancy,precipitate labour,superoetation,superfecundation,signs of recent & remote delivery in living & dead
WEDNESDAY	PE3.6-Discuss the referral criteria for children with developmental delay,PE3.8 Discuss the etio-pathogenesis, clinical presentation and multidisciplinary approach in the management of Cerebral palsy (SGD/Tutorial)	PE3.3 Assessment of a child with developmental delay - Elicit document and present history,PE3.4 Counsel a parent of a child with developmental delay,PE3.7 Visit a Child Developmental Unit and observe its functioning (Clinical Postings)		OG 1.3 Define and discuss still birth and abortion	AN31.5 Explain the anatomical basis of oculomotor, trochlear and abducent nerve palsies along with strabismus	CM 8.1 Describe and discuss the epidemiological and control measures applicable in vectorborne diseases
THURSDAY	PE2.1 Discuss the etio-pathogenesis, clinical features and management of a child who fails to thrive,(SGD/Tutorial)	PE2.2 Assessment of a child with failing to thrive including eliciting an appropriate history and examination (Clinical Postings)		IMS.4Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 3	CM 8.3. Enumerate and describe disease specific National Health Programs in vectorborne diseases
FRIDAY	PE7.1 Awareness on the cultural beliefs and practices of breast feeding,PE7.2 Explain the physiology of lactation (SGD/Tutorial)	PE7.5 Observe the correct technique of breast feeding and distinguish right from wrong techniques,PE7.7 Perform breast examination and identify common problems (Clinical Postings)			OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking	CT 2.5 Describe and discuss the genetics of alpha 1 antitrypsin deficiency in emphysema
SATURDAY	PE7.4 Discuss the advantages of breast milk (SGD/Tutorial)	PE7.8 Educate mothers on ante natal breast care and prepare mothers for lactation such as retracted nipples, cracked nipples, breast engorgement, breast abscess,PE7.9 Educate and counsel mothers for best practices in Breast feeding (Clinical Postings)		AETCOM MODULE Module 3.3: The foundations of communication - 4(Otorhinolaryngology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PE8.1 Define the term Complementary Feeding,PE8.3 Enumerate the common complimentary foods (SGD/Tutorial)	PE8.4 Elicit history on the Complementary Feeding habits,PE8.5 Counsel and educate mothers on the best practices in Complimentary Feeding		SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias	<b>Personality Disorders</b> PS 11.1 Enumerate and describe the magnitude and etiology of personality disorders PS 11.4 Describe the treatment of personality disorders including behavioural, psychosocial and pharmacologic therapy PS 11.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in personality disorders PS 11.7 Enumerate the appropriate conditions for specialist referral	FM 3.21-PC & PNDT Act
TUESDAY	PE9.2 Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents,PE9.5 Calculate the age related calorie requirement in Health and Disease and identify gap (SGD/Tutorial)	PE9.4 Elicit document and present an appropriate nutritional history and perform a dietary recall,PE9.6 Assess and classify the nutrition status of infants, children and adolescents and recognize deviations,PE9.7 Plan an appropriate diet in health and disease		EN 4.36Describe the clinical features, investigations, and principles of management of diseases of the salivary glands	PE10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM), PE10.2 Outline the clinical approach to a child with SAM and MAM, PE10.6 Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets	FM 3.22-Impotence,sterility,frigidity,sexual dysfunction,premature ejaculation
WEDNESDAY	PE10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM),(SGD/Tutorial)	PE10.3 Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention,PE10.4 Identify children with under nutrition as per IMNCl criteria and plan referral (Clinical Postings)		OG 5.2 Determine maternal high risk factors and verify immunization status	OP5.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to vectorborne diseases(Dengue)
THURSDAY	PE10.2 Outline the clinical approach to a child with SAM and MAM(SGD/Tutorial)	PE10.5 Counsel parents of children with SAM and MAM,PE10.6 Enumerate the role of locally prepared therapeutic diets and ready to use therapeutic diets (Clinical Postings)		IM5.5Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 4	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to vectorborne diseases(Chikungunya/Yellow fever)
FRIDAY	PE11.5 Calculate BMI, document in BMI chart and interpret,PE11.6 Discuss criteria for referral (SGD/Tutorial)	PE11.3 Assessment of a child with obesity with regard to eliciting history including physical activity, charting and dietary recall (Clinical Postings)			OP5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis	CT 2.6 Describe the role of environment in the cause and exacerbation of obstructive airway disease
SATURDAY	PE11.1 Describe the common etiology, clinical features and management of obesity in children,PE11.2 Discuss the risk approach for obesity and discuss the prevention strategies (SGD/Tutorial)	PE11.4 Examination including calculation of BMI, measurement of waist hip ratio, identifying external markers like acanthosis, striae,pseudogynaecomastia etc (Clinical Postings)		AETCOM MODULE Module 3.3: The foundations of communication - 4(Otorhinolaryngology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program,PE19.2 Explain the epidemiology of Vaccine preventable diseases (SGD/Tutorial)	PE19.6 Assess patient for fitness for immunization and prescribe an age appropriate immunization schedule (Clinical Postings)		SU28.3 Describe causes, clinical features, complications and principles of mangament of peritonitis	Psychosomatic Disorders PS 12.1 Enumerate and describe the magnitude and etiology of psychosomatic disorders PS 12.4 Describe the treatment of psychosomatic disorders including behavioural, psychosocial and pharmacologic therapy PS 12.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosomatic disorders PS 12.7 Enumerate the appropriate conditions for specialist referral	FM 3.23-Sterilization of male & female,Artificial insemination,test tube baby,surrogate mother,hormonal replacement therapy
TUESDAY	PE19.3 Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications, PE19.4 Define cold chain and discuss the methods of safe storage and handling of vaccines, PE19.5 Discuss immunization in special situations – HIV positive children, immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, travellers (SGD/Tutorial)	PE19.7 Educate and counsel a patient for immunization,PE19.8 Demonstrate willingness to participate in the National and sub national immunisation days (Clinical Postings)		EN 4.38Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose correct investigations, and describe the principles of management of dysphagia	PE12.1 Discuss the RDA, dietary sources of Vitamin A and their role in Health and disease, PE12.2 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin A, PE12.5 Discuss the Vitamin A prophylaxis program and their recommendations, PE12.11 Discuss the RDA, dietary sources of Vitamin E and their role in health and disease, PE12.12 Describe the causes, clinical features, diagnosis and management of deficiency of Vitamin E, PE12.13 Discuss the RDA, dietary sources of Vitamin K and their role in health and disease, PE12.14 Describe the causes, clinical features, diagnosis management and prevention of deficiency of Vitamin K	FM 3.24,3.25.3.26-Methods of contraception,National family planning programme,National family health survey,ART clinics
WEDNESDAY	PE19.9 Describe the components of safe vaccine practice – Patient education/ counselling; adverse events following immunization, safe injection practices, documentation and Medico-legal implications,(SGD/Tutorial)	PE19.10 Observe the handling and storing of vaccines (Clinical Postings)		OG 9.1 Classify, define and discusses the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	AN41.2 Describe the anatomical aspects of cataract, glaucoma & central retinal artery occlusion	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to vectorborne diseases(JE/ Kala-Azar/ KFD)
THURSDAY	PE19.15 Explain the term implied consent in Immunization services,PE19.16 Enumerate available newer vaccines and their indications including pentavalent pneumococcal, rotavirus, JE, typhoid IPV & HPV (SGD/Tutorial)	PE19.6 Assess patient for fitness for immunization and prescribe an age appropriate immunization schedule (Clinical Postings)		IM5.6Describe and discuss the pathophysiology, clinical evolution and complications (and treatment) of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 5	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to vectorborne diseases(Malaria)
FRIDAY	PE19.13 Demonstrate the correct administration of different vaccines in a mannequin (SGD/Tutorial)	PE19.11 Document Immunization in an immunization record. ASSESMENT			OP2.4 Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis	CT 2.7 Describe and discuss allergic and non -allergic precipitants of obstructive airway disease
SATURDAY	PE19.14 Practice Infection control measures and appropriate handling of the sharps (SGD/Tutorial)	PE19.12 Observe the administration of UIP vaccines (Clinical Postings)		AETCOM MODULE Module 3.3: The foundations of communication - 4(Otorhinolaryngology)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PE28.1 Discuss the etio-pathogenesis, clinical features and management of Naso pharyngitis,PE28.2 Discuss the etio-pathogenesis of Pharyngo Tonsillitis,PE28.3 Discuss the clinical features and management of Pharyngo Tonsillitis,PE28.4 Discuss the etio-pathogenesis, clinical features and management of Acute Otitis Media (AOM)	PE28.11 Perform throat examination using tongue depressor,12 Perform PE28.12 examination of the nose,PE28.13 Analyse the clinical symptoms and interpret physical findings and make a provisional / differential diagnosis in a child with ENT symptoms		SU28.4 Describe pathophysiology, clinical features, investigations and principles of management of Intra-abdominal abscess, mesenteric cyst, and retroperitoneal tumors	<b>Psychosexual And Gender Identity Disorders</b> PS 13.1 Enumerate and describe the magnitude and etiology of psychosexual and gender identity disorders  PS 13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural, psychosocial and pharmacologic therapy PS 13.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosexual and gender identity disorders PS 13.7 Enumerate the appropriate conditions for specialist referral	FM 3.27-Abortion,MTP,MTP Act,Criminal abortion
TUESDAY	PE28.5 Discuss the etio-pathogenesis, clinical features and management of Epiglottitis (SGD/Tutorial)	PE28.9 Elicit, document and present age appropriate history of a child with upper respiratory problem including Stridor (Clinical Postings)		EN 4.19Describe the clinical features, investigations, and principles of management of vertigo EN 4.20Describe the clinical features, investigations, and principles of management of Ménière's disease	PE12.6 Discuss the RDA, dietary sources of Vitamin D and their role in health and disease, PE12.7 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin D (Rickets and Hypervitaminosis D), PE12.10 Discuss the role of screening for Vitamin D deficiency, PE13.11 Discuss the RDA, dietary sources of Calcium and their role in health and disease, PE13.12 Describe the causes, clinical features, diagnosis and management of Ca Deficiency	FM 3.28-Evidences of abortion in living & dead,Duties of doctor in cases of abortion,investigations of death due to criminal abortion
WEDNESDAY	PE28.6 Discuss the etio-pathogenesis, clinical features and management of Acute laryngo- trachea-bronchitis,PE28.7 Discuss the etiology, clinical features and management of Stridor in children (SGD/Tutorial)	PE28.14 Develop a treatment plan and document appropriately in a child with upper respiratory symptoms,PE28.16 Interpret blood tests relevant to upper respiratory problems (Clinical Postings)		OG 9.2 Describe the steps and observe/ assist in the performance of an MTP evacuation	OP6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to vectorborne diseases(Filaria)
THURSDAY	PE28.8 Discuss the types, clinical presentation, and management of foreign body aspiration in infants and children (SGD/Tutorial)	PE28.17 Interpret X-ray of the paranasal sinuses and mastoid; and /or use n case of management Interpret CXR in foreign body aspiration and lower respiratory tract infection, understand the significance of thymic shadow in pediatric chest X-rays (Clinical Postings)		IM5.6Describe and discuss the pathophysiology, clinical evolution and complications (and treatment) of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 6	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable to bloodborne diseases (Hep B & C)
FRIDAY	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features,management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema, PE28.19 Describe the etio-pathogenesis, diagnosis, clinical features,management and prevention of asthma in children(SGD/Tutorial)	PE28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment (Clinical Postings)			OP6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	CT 2.16 Discuss and describe therapies of OAD including bronchodilators, leukotriene inhibitors , mast cell stabilisers, theophylline, inhaled and sytemic steroids, oxygen and immunotherapy.
SATURDAY	PE31.6 Recognise symptoms and signs of Asthma,PE31.7 Develop a treatment plan for Asthma appropriate to clinical presentation & severity,PE31.8 Enumerate criteria for referral (SGD/Tutorial)	PE31.9 Interpret CBC and CX Ray in Asthma,PE31.10 Enumerate the indications for PFT, PE31.11 Observe administration of Nebulisation (Clinical Postings) FEEDBACK		AETCOM MODULE Module 3.3: The foundations of communication - 4(Otorhinolaryngology)		Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PS 3.1 Introduction To Psychiatry Describe the growth of psychiatry as a medical specialty its history and contribution to society (SGD/Tutorial)	BIPOLAR DISORDER Case discussion PS 7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders (Clinical Postings) PS 7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders PS 7.5 Demonstrate family education in a patient with bipolar disorders in a simulated environment Management		SU28.5 Describe the applied Anatomy and physiology of esophagus	PSYCHIATRIC DISORDERS IN CHILDHOOD AND ADOLESCENCE PS 14.1 Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence PS 14.3 Describe the treatment of stress related disorders including behavioural, psychosocial and pharmacologic	FM 3.30 & 3.31-Torture, identification of injuries by torture,its sequelae,management of survivors,Torture & Human rights,NHRC guidelines
TUESDAY	PS 1.2 Doctor Patient Relationship Describe the components of communication (SGD/Tutorial)	ANXIETY DISORDERS Case discussion PS 8.2 Enumerate, elicit, describe and document clinical features in patients with anxiety disorders (Clinical Postings) PS 8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders PS 8.5 Demonstrate family education in a patient with anxiety disorders in a simulated environment Management		EN 4.39Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose correct investigations, and describe principles of management of acute and chronic tonsillitis	PE12.15 Discuss the RDA, dietary sources of Vitamin B and their role in health and disease, PE12.16 Describe the causes, clinical features, diagnosis and management of deficiency of B complex vitamins, PE12.19 Discuss the RDA , dietary sources of Vitamin C and their role in Health and disease, PE12.20 Describe the causes, clinical features, diagnosis and management of deficiency of Vitamin C (scurvy)	FM 3.32 & 3.33-Torture-report/opinion framing,evidence collection preservation & dispatchsexual assault psychological consultation & rehabilitations
WEDNESDAY	PS 2.3 Define and describe the principles and components of learning (SGD/Tutorial)	STRESS RELATED DISORDERS PS 9.2 Enumerate, elicit, describe and document clinical features in patients with stress related disorders PS 9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders PS 9.5 Demonstrate family education in a patient with stress related disorders in a simulated environment Management (Clinical Postings)		OG 9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	PH1.58 Describe drugs used in Ocular disorders	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in contact diseases (HIV)
THURSDAY	PS 2.3 Define and describe the principles and components of memory (SGD/Tutorial)	SOMATOFORM DISORDERS PS 10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform, dissociative and conversion disorders PS 10.3 Enumerate and describe the indications and interpret laboratory and other tests used in somatoform, dissociative and conversion disorders PS 10.5 Demonstrate family education in a patient with somatoform, dissociative and conversion disorders in a simulated environment Management (Clinical Postings)		IM15.1Enumerate, describe and discuss the aetiology of upper and lower Gi bleeding IM15.3Describe and discuss the physiologic effects of acute blood and volume loss	Pandemic Module: 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 7	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in contact diseases (STDs)
FRIDAY	PS 2.3 Define and describe the principles and components of emotions (SGD/Tutorial)	PERSONALITY DISORDERS PS 11.2 Enumerate, elicit, describe and document clinical features in patients with personality disorders PS 11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders PS 11.5 Demonstrate family education in a patient with personality disorders in a simulated environment Management (Clinical Postings)			OP6.4 Describe and distinguish hyphema and hypopyon	CT 2.17 Describe and discuss the indications for vaccinations in OAD
SATURDAY	PS3.7 -Enumerate and describe comon organic psychiatric disorders, magnitude, etiology,and clinical features. (SDL1)	PSYCHOSOMATIC DISORDERS PS 12.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders PS 12.3 Enumerate and describe the indications and interpret laboratory and other tests of psychosomatic disorders PS 12.5 Demonstrate family education in a patient with psychosomatic disorders in a simulated environment Management (Clinical Postings)		EN 4.45Principles of management of vocal cord palsy	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	PS 2.4 Describe the principles of personality development and motivation	PSYCHOSEXUAL AND GENDER IDENTITY DISORDERS PS 13.2 Enumerate, elicit, describe and document clinical features in patients with magnitude and etiology of Psychosexual and gender identity disorders PS 13.3 Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders PS 13.5 Demonstrate family education in a patient with psychosexual and gender identity disorders in a simulated environment Management		SU28.6 Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus	PSYCHIATRIC DISORDERS IN CHILDHOOD AND ADOLESCENCE  PS 14.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence PS 14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders	FM 4.1 & 4.2-History of Medical ethics,Code of medical ethics 2002, etiquette,ethics in medical practices,unethical practices
TUESDAY	PS 2.5 Define and distinguish normality and abnormality (SGD/Tutorial)	PSYCHIATRIC DISORDERS IN CHILDHOOD AND ADOLESCENCE PS 14.2 Enumerate, elicit, describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence PS 14.4 Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment Management (Clinical Postings)		EN 4.37 Describe the clinical features, investigations, and principles of management of Ludwig's angina	PE13.1 Discuss the RDA, dietary sources of Iron and their role in health and disease, PE13.2 Describe the causes, diagnosis and management of Fe deficiency, PE13.6 Discuss the National anaemia control program and its recommendations	FM 4.1 & 4.2-History of Medical ethics,Code of medical ethics 2002, etiquette,ethics in medical practices,unethical practices
WEDNESDAY	PS 19.3 Describe and discuss the basic legal and ethical issues in psychiatry (SGD/Tutorial)	MENTAL RETARDATION PS 15.4 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retardation Management (Clinical Postings)		OG 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms	PA36.1 Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in contact diseases (Leprosy)
THURSDAY	PS 19.4 Enumerate and describe the salient features of the prevalent mental health laws in India (SGD/Tutorial)	PSYCHIATRIC DISORDERS IN THE ELDERLY PS 16.4 Clinical features, assessment Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment Management (Clinical Postings)		IM15.6Distinguish between upper and lower gastrointestinal bleeding based on the clinical features	Pandemic Module 3.3 (Community Medicine) Operational Research, Field work & Surveillance - 8	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in contact diseases (Trachoma/Tetanus)
FRIDAY	PS 19.5 Describe the concept and principles of preventive psychiatry and mental health promotion (positive mental health) and community education PS 19.6 Enumerate and describe the identifying features and the principles of participatory management of mental illness occurring during and after disasters (SGD/Tutorial)	ASSESSMENT- written exam, VIVA, Case scenarios.			OP6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	CT 2.20 Describe and discuss the principles and use of oxygen thrapy in the hospital and at home.
SATURDAY	PS4.1 Describe the magnitude and etiology of alcohol and substance use disorders (SDL)	FEEDBACK		EN 4.42Principles of management of hoarseness of voice EN 4.43Principles of management of acute & chronic laryngitis	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	DR10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis (SGD/Tutorial)	DR15.1Identify and distinguish folliculitis impetigo and carbuncle from other skin lesions DR15.2Identify staphylococcus on a gram stain DR15.4Enumerate the indications for surgical referral (Clinical Postings)		SU28.7 Describe the applied anatomy and physiology of stomach	Intellectual Disability / MR 15.1 Describe The Etiology And Magnitude Of Mental Retardation 15.2 Describe And Discuss Intelligence Quotient And Its Measurement 15.4 Describe The Psychosocial Interventions And Treatment Used In Mental Retardation	FM 4.3 & 4.4-Medical council of India, State medical councils, Indian medical register
TUESDAY	DR3.1 Identify and distinguish psoriatic lesions from other causes DR3.3 Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy (SGD/Tutorial)	DR14.2Identify and distinguish urticarial from other skin lesions DR14.3Demonstrate dermatographism DR14.4Identify and distinguish angioedema from other skin lesions (Clinical Postings)		EN 4.46 Describe the clinical features, investigations, and principles of management of malignancy of the larynx & hypopharynx	PE13.7 Discuss the RDA , dietary sources of Iodine and their role in Health and disease, PE13.8 Describe the causes, diagnosis and management of deficiency of Iodine, PE13.10 Discuss the National Goiter Control program and their recommendations, PE13.13 Discuss the RDA, dietary sources of Magnesium and their role in health and disease, PE13.14 Describe the causes, clinical features, diagnosis and management of Magnesium Deficiency	FM 4.5-Rights & privileges of RMP,penal erasure,infamous conduct,disciplinary committee,warning notice
WEDNESDAY	DR4.1 Identify and distinguish lichen planus lesions from other causes DR4.2 Enumerate and describe the treatment modalities for lichen planus (SGD/Tutorial)	DR12.2Identify eczema and differentiate it from lichenification and changes of aging DR12.5Define erythroderma. Enumerate and identify the causes of erythroderma. Discuss the treatment DR12.6Identify and distinguish exfoliative dermatitis from other skin lesions (Clinical Postings)		OG 9.5 Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	OP6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	CM 8.1 Describe and discuss the epidemiological and control measures applicable in emerging infectious diseases
THURSDAY	DR9.1 Classify, describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy (SGD/Tutorial)	DR1.2 Identify and grade the various common types of acne (Clinical Postings)		IM15.10Enumerate the indications for endoscopy, colonoscopy and other imaging procedures in the investigation of Upper GI bleeding	CM 5.5 Enumerate and discuss the National Nutrition Policy, important National nutritional Programs including the Integrated Child Development Services Scheme (ICDS)	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in emerging infectious diseases(Ebola/Zika)
FRIDAY	DR9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions (SGD/Tutorial)	DR2.1 Identify and differentiate vitiligo from other causes of hypopigmented lesions (Clinical Postings)			OP6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	CT 2.25 Describe and discuss the impact of OAD on the society and at workplace
SATURDAY	DR10.1 Identify and classify syphilis based on the presentation and clinical manifestations (SGD/Tutorial)	DR3.1 Identify and distinguish psoriatic lesions from other causes DR3.2 Demonstrate the grattage test (Clinical Postings)		EN 4.47Principles of management of stridor.List the management options in a case of stridor	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	DR10.3 - Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis (SGD/Tutorial)	DR4.1 --Identify and distinguish lichen planus lesions from other causes		SU28.8 Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	<b>Psychiatric Disorders In Elderly</b>  16.1 Enumerate and describe common psychiatric disorders in the elderly including dementia, depression and psychosis 16.2 Describe the aetiology and magnitude of psychiatric illness in the elderly 16.3 Describe the therapy of psychiatric illness in elderly including psychosocial and behavior therapy 16. 5 Enumerate the appropriate conditions for specialist referral in psychiatric disorders in the elderly	FM 4.6-Laws in relation to medical practice,duties of medical practitioner
TUESDAY	DR10.6 - Describe the etiology, diagnostic and clinical features of non-syphilitic sexually transmitted diseases (chancroid, donovanosis and LGV)(SGD/Tutorial)	DR8.2 -Identify and distinguish herpes simplex and herpes labialis from other skin lesions DR8.3 -Identify and distinguish herpes zoster and varicella from other skin lesions		EN 4.49 Elicit, document, and present a correct history, demonstrate and describe the clinical features, choose the correct investigations, and describe the principles of management of foreign bodies in the air and food passages	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program, PE19.3 Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications, PE19.5 Discuss immunization in special situations – HIV positive children, immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, travellers, PE19.16 Enumerate available newer vaccines and their indications including pentavalent pneumococcal, rotavirus, JE, typhoid IPV & HPV	FM 4.7-Ethics related to HIV patient
WEDNESDAY	DR10.10 - Describe the etiology, diagnostic and clinical features and management of gonococcal and non-gonococcal urethritis (SGD/Tutorial)	DR9.2 - Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination DR9.3 - Enumerate the indications and observe the performance of a slit skin smear in patients with leprosy		OG 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	OP6.9 Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions	CM 8.1 Describe and discuss the epidemiological and control measures including use of essential lab tests in a PHC applicable in emerging infectious diseases(COVID-19)
THURSDAY	DR 10.10-- Describe the etiology, diagnostic and clinical features and management of gonococcal and non- gonococcal urethritis DR 10.11-- Describe the etiology, diagnostic and clinical features and management of vaginal discharge (SGD/Tutorial)	DR10.1 - Identify and classify syphilis based on the presentation and clinical manifestations		IM15.16Enumerate the indications for endoscopic interventions and Surgery	CM 5.5 Enumerate and discuss the National Nutrition Policy, important National nutritional Programs including the Integrated Child Development Services Scheme (ICDS)	CM 8.4 Describe the principles and enumerate the measures to control a epidemic CM 8.5 Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level
FRIDAY	DR11.1 -- Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections (SGD/Tutorial)	DR10.7 - Identify and differentiate based on the clinical features non-syphilitic sexually transmitted diseases (chancroid, donovanosis, LGV and herpes simplex)			OP6.9 Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions	CT 2.26 Discuss and Describe the impact of OAD in workplaces.
SATURDAY	DR11.2 -- Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions (SGD/Tutorial)	Assessment (viva voce), feed back		EN 4.52Principles of management of diseases of esophagus	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AS2.1 Enumerate the indications, describe the steps in Basic Life Support in adults, children and neonates (SGD/Tutorial)	AS2.1 demonstrate in a simulated environment, Basic Life Support in adults, children and neonates AS9.1 Establish intravenous access in a simulated environment		SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Psychiatric Emergencies PS 17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, PS 17.2 Deliberate Self Harm, Violent behavior) Describe the initial stabilization and management of psychiatric emergencies PS 17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies	FM 4.8-Consumer protection Act,Workmen compensation Act,ESI Act
TUESDAY	AS2.2 Enumerate the indications, describe the steps in Advanced Life Support in adults and children (SGD/Tutorial)	AS2.2 Demonstrate in a simulated environment, Advanced Life Support in adults and children AS9.2 Establish central venous access in a simulated environment		EN 4.18Describe the clinical features, investigations, and principles of management of facial nerve palsy	PE28.4 Discuss the etio-pathogenesis, clinical features and management of Acute Otitis Media (AOM), PE28.1 Discuss the etio-pathogenesis, clinical features and management of Naso pharyngitis	FM 4.11-Euthanasia
WEDNESDAY	AS3.2 Appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation AS3.3 Appropriate clinical examination in a patient undergoing General Surgery AS3.4 Appropriate testing for patients undergoing Surgery AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation AS3.6 Prescription for appropriate premedications for patients undergoing surgery (SGD/Tutorial)	AS3.2 Elicit, present and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation AS3.3 Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery AS3.4 Choose and interpret appropriate testing for patients undergoing Surgery AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation AS3.6 Choose and write a prescription for appropriate premedications for patients undergoing surgery		OG 11.1 Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
THURSDAY	AS4.3 Principles and the practical aspects of induction and maintenance of anesthesia AS4.4 Principles and the steps/ techniques in maintenance of vital organ functions in patients undergoing surgical procedures AS4.5 Principles and the steps/ techniques in monitoring patients during anaesthesia AS4.6 Principles and the steps/ techniques involved in day care anesthesia AS4.7 Principles and the steps/ techniques involved in anaesthesia outside the operating room (SGD/Tutorial)	AS4.3 Observe and describe the principles and the practical aspects of induction and maintenance of anesthesia AS4.4 Observe and describe the principles and the steps/ techniques in maintenance of vital organ functions in patients undergoing surgical procedures AS4.5 Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia AS4.6 Observe and describe the principles and the steps/ techniques involved in day care anesthesia AS4.7 Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room		IM15.11Develop, document and present a treatment plan that includes fluid resuscitation, blood and blood component transfusion, and specific therapy for arresting blood loss	RD1.1 Define radiation and the interaction of radiation and importance of radiation protection	DR3.3--Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy
FRIDAY	AS5.3 Principles and steps/ techniques involved in peripheral nerve blocks AS5.4 Pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia AS5.5 Principles and steps/ techniques involved in caudal epidural in adults and children AS5.6 Principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks)(SGD/Tutorial)	AS5.3 Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anesthesia AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks)			OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
SATURDAY	AS6.1 Principles of monitoring and resuscitation in the recovery room AS6.2 Enumerate the contents of the crash cart and describe the equipment used in the recovery room AS7.1 Enumerate and describe the functions of an Intensive Care Unit AS7.2 Enumerate and describe the criteria for admission and discharge of a patient to an ICU AS7.3 Describe the management of an unconscious patient AS7.4 Describe the basic setup process of a ventilator AS7.5 Describe the principles of monitoring in an ICU AS8.2 Determine the level, quality and quantity of pain and its tolerance in patient or surrogate (SGD/Tutorial)	AS6.1 Describe the principles of monitoring and resuscitation in the recovery room AS6.2 Observe and enumerate the contents of the crash cart and describe the equipment used in the recovery room AS7.1 Visit, enumerate and describe the functions of an Intensive Care Unit AS7.2 Enumerate and describe the criteria for admission and discharge of a patient to an ICU AS7.3 Observe and describe the management of an unconscious patient AS7.4 Observe and describe the basic setup process of a ventilator AS7.5 Observe and describe the principles of monitoring in an ICU AS8.2 Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate		EN 2.15National programmes in ENT EN 4.6Principles of management of discharging ear	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	Sessional Exams	Sessional Exams				
TUESDAY	Sessional Exams	Sessional Exams				
WEDNESDAY	Sessional Exams	Sessional Exams				
THURSDAY	Sessional Exams	Sessional Exams				
FRIDAY	Sessional Exams	Sessional Exams				
SATURDAY	Sessional Exams	Sessional Exams				

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	ENUMERATE THE PARTS OF THE TOOTH,IDENTFY THE DENTAL CARIES, AND DISCUSS THE ROLE OF DENTAL CARIES AS A FOCUS OF SEPSIS (SGD/Tutorial)	ORAL AND MAXILLOFACIAL FRACTURES AND ITS CAUSES (Clinical Postings)		SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	PS18.1 Basics of psychopharmacology	FM 4.18-Civil & criminal negligence,contributory negligence,corporate negligence,vicarious liability,Res Ipsa loquitur,prevention of medical negligence,litigations
TUESDAY	ENUMERATE THE COMMON WAYS OF RESTORING THE EDENTULOUS STATE (SGD/Tutorial)	PATIENT COUSSELLING ON THE IMPORTANCE OF RESTORING MISSING TEETH/ TISSUE WITH RESPECT TO THE BENEFITS ON ORAL AND SYSTEMIC HEALTH b(Clinical Postings)		EN 4.46 Describe the clinical features, investigations, and principles of management of malignancy of the larynx & hypopharynx	PE28.2 Discuss the etio-pathogenesis of Pharyngo Tonsillitis, PE28.3 Discuss the clinical features and management of Pharyngo Tonsillitis	FM 4.19-Consent-types,ingredientsrules,imporatnce,age,emergency situations,mental illness
WEDNESDAY	MALOCCLUSION AND TO DISCUSS THE PREVALENCE OF ORAL CANCER AND ENUMERATE THE COMMON TYPES OF CANCER THAT CAN AFFECT TISSUE OF THE ORAL CAVITY(SGD/Tutorial)	DISCUSS THE ROLE OF ETIOLOGICAL FACTORS IN THE FORMATION OF THE PRECANCEROUS/ CANCEROUS LESION (Clinical Postings)		OG 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complicationsof eclampsia.	OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
THURSDAY	IDENTIFY POTENTIAL PRECANCEROUS OR CANCEROUS LESION (SGD/Tutorial)	COUSEL PATIENTS TO RISK OF ORAL CANCER WITH RESPECT TO TOBACCO, SMOKING, ALCOHOL AND OTHER CAUSATIVE FACTORS (Clinical Postings)		IM15.14Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of pressors used in the treatment of Upper GI bleed	RD1.9 Describe the role of interventional Radiology in common clinical conditions	DR3.3 Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy
FRIDAY	PERIODONTAL DISEASE, ENUMERATE THE PARTS OF THE TOOTH AND SUPPORTING STRUCURES (SGD/Tutorial)	COUNSEL PATIENT WITH RESPECT TO ORAL HYGIENE, DIET AND THE DIRECT BEARING ON SYSTEMIC HEALTH AND VICE VERSA (Clinical Postings)			OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
SATURDAY	DESCRIBE THE ETIOLOGY, PATHOGENESIS, PATHOLOGY AND CLINICAL FEATURES OF ORAL CANCER (SGD/Tutorial)	IDENTIFY THE PERIODONTAL DISEASE, AWARE OF MALOCCLUSION AND THE TISSUE THAT CAUSE IT (Clinical Postings)		OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)- exudative RD (SDL)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM 1.6 Describe and discuss the concepts, the principles of Health promotion and Education, IEC and Behavioral change communication (BCC)	CM 1.9 Demonstrate the role of effective Communication skills in health in a simulated environment CM 8.6 Educate and train health workers in disease surveillance, control and treatment and Health education		SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	Therapeutics PS 18.1 Basics of psychopharmacology PS 18,2 Enumerate the indications for modified electroconvulsive therapy	FM 4.20 & 4.21-Therapeutic privilege, therapeutic misadventure, professional secrecy, Human experimentation, product liability, medical indemnity insurance
TUESDAY	CM 1.6 Describe and discuss the concepts, the principles of Health promotion and Education, IEC and Behavioral change communication (BCC)	CM 1.10 Demonstrate the important aspects of the doctor patient relationship in a simulated environment		EN 4.29 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of acute and chronic rhinitis	PE28.5 Discuss the etio-pathogenesis, clinical features and management of Epiglottitis, PE28.6 Discuss the etio-pathogenesis, clinical features and management of Acute laryngo- trachea-bronchitis	FM 4.24-Rights, privileges & duties of RMP, doctor patient relationship, professional secrecy & privileged communication
WEDNESDAY	CM 2.3 Describe the assessment of barriers to good health and health seeking behavior	CM 2.3 Demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior		OG 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
THURSDAY	CM 14.1 Define and classify hospital waste, CM 14.2 Describe various methods of treatment of hospital waste -(Integration with Microbiology)	CM14.3 Describe laws related to hospital waste management - CM 14.2 Describe various methods of treatment of hospital waste - Demonstration of Hospital waste management, Visit to Incinerator plant		IM15.15 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of acid peptic disease including Helicobacter pylori	RD1.10 Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments	DR4.1 Identify and distinguish lichen planus lesions from other causes DR4.2 Enumerate and describe the treatment modalities for lichen planus
FRIDAY	CM5.7 Describe food hygiene, FSSAI	CM5.7 Describe food hygiene - Visit to pasteurization plant, slaughter house			OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
SATURDAY	CM 3.2 - Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes	CM 3.2 - Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes - Visit to water treatment plant		OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina (SDL)	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM 3.2, 3.8 - Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, Describe the mode of action, application cycle of commonly used insecticides and rodenticides	CM 3.2, 3.8- Demonstration of well water purification,insecticides,essential drugs		SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	PS 18.3 Enumerate and describe the principles and role of psychosocial interventions in psychiatric illness including psychotherapy behavioural therapy and rehabilitation	FM 4.22,4.23 & 4.25-Hippocrates Oath,Clinical research,ethics on human experimentation including clinical trials
TUESDAY	CM10.5 Describe Universal Immunization Program;	CM10.5 Describe Universal Immunization Program; Discuss the National Immunization schedule, Coldchain maintenance and AEFI		EN 4.21Describe the clinical features, investigations, and principles of management of tinnitus	PE28.7 Discuss the etiology, clinical features and management of Stridor in children, PE28.8 Discuss the types, clinical presentation, and management of foreign body aspiration in infants and children	FM 8.3,8.4,8.5 & 8.6-Types of poison,diagnosis of poisoning in living & dead,ML autopsy of poisoning case, viscera,managemnt of common poisons of India
WEDNESDAY	CM7.5 Enumerate, define, describe and discuss epidemiological study designs CM7.8 Describe the principles of association, causation and biases in epidemiological studies	CM7.4 Define, calculate and interpret morbidity and mortality indicators based on given set of data CM 7.9 Describe and demonstrate the application of computers in epidemiology		OG 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
THURSDAY	CM7.6 Enumerate and evaluate the need of screening tests	CM7.6 Enumerate and evaluate the need of screening tests - DOAP session		IM11.1Define and classify diabetes IM11.4Describe and discuss the genetic background and the influence of the environment on diabetes IM11.5Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	RD1.11 Describe preparation of patient for common imaging procedures	DR8.1 --Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children DR8.7 --Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for common viral illnesses of the skin
FRIDAY	CM8.4 Describe the principles and enumerate the measures to control a disease epidemic	CM7.7 Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures - DOAP session			OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the funduscopic features in a normal condition and in conditions causing an abnormal retinal exam	CM 8.2 Describe and discuss the epidemiological and control measures including use of essential lab tests at primary care level for NCD
SATURDAY	CM9.5 Describe the methods of population control	CM10.6 Enumerate and describe various family planning methods, their advantages and shortcomings		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	RD 1.1 Define radiation and the interaction of radiation and importance of radiation protection RD 1.2 Describe the evolution of Radiodiagnosis Identify various radiological equipments In the current era (SGD/Tutorials)	RD 1.1 Define radiation and the interaction of radiation and importance of radiation protectionDescribe the evolution of Radiodiagnosis. RD 1.2 Identify various radiological equipments In the current era (Clinical Postings)		SU28.13 Describe the applied anatomy of small and large intestine	PS 19.1 Describe the relevance role and status of community psychiatry PS 19.2 Describe the objective strategies and contents of the National Mental Health Programme	FM 8.8-Poisoning-Decontamination,supportive therapy,antidote therapy,enhanced elimination
TUESDAY	RD 1.3 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT (SGD/Tutorials)	RD 1.3 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT (Clinical Postings)		EN 4.50 Observe and describe the indications for, and steps involved in tracheostomy EN 4.51Observe and describe the care of the patient with a tracheostomy	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema	FM 8.9 & 8.10-Intimating police,maintenance of records,collection & despatch of samples,Analytical toxicology-GC,TLC,LC & AAS
WEDNESDAY	RD 1.4 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy (SGD/Tutorials)	RD 1.4 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy (Clinical Postings)		OG 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)-integration with community medicine	CM 8.3. Enumerate and describe the National Health Program (NCD)
THURSDAY	RD 1.5 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine (SGD/Tutorials)	RD 1.5 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine (Clinical Postings)		IM11.2Describe and discuss the epidemiology and pathogenesis and risk factors and clinical evolution of type 1 diabetes IM11.3Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes	RD1.12 Describe the effects of radiation in pregnancy and the methods of prevention/minimization of radiation exposure	DR7.1Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children DR7.2 Identify Candida species in fungal scrapings and KOH mount
FRIDAY	RD 1.6 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery (SGD/Tutorials )	RD 1.6 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery (Clinical Postings)			OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway	CM 10.1 Describe the current status of Reproductive, maternal, newborn and Child health
SATURDAY	RD 1.7 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Pediatrics (SGD/Tutorials)	RD 1.7 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Pediatrics (Clinical Postings)		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	RD 1.1 Define radiation and the interaction of radiation and importance of radiation protectionDescribe the evolution of Radiodiagnosis. RD 1.2 Identify various radiological equipments In the current era	RD 1.1 Define radiation and the interaction of radiation and importance of radiation protectionDescribe the evolution of Radiodiagnosis. RD 1.2 Identify various radiological equipments In the current era		SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	Psychiatry SDL 3- PS4.1 Describe the magnitude and etiology of alcohol and substance use disorders.	FM 9.1-Corrosive poisons
TUESDAY	RD 1.8 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies (SGD/Tutorials)	RD 1.8 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies (Clinical Postings)		EN 4.48 Elicit, document, and present a correct history, demonstrate and describe the clinical features, choose the correct investigations, and describe the principles of management of airway emergencies	PE28.19 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children, PE28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment	FM 9.1-Corrosive poisons
WEDNESDAY	RD 1.9 Describe the role of Interventional Radiology in common clinical conditions (SGD/Tutorials)	RD 1.9 Describe the role of Interventional Radiology in common clinical conditions (Clinical Postings)		OG 12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina	CM 10.2 Enumerate and describe the methods of screening high risk groups and common health problems
THURSDAY	RD 1.10 Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments (SGD/Tutorials)	RD 1.10 Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical departments (Clinical Postings)		IM11.6Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies IM11.9Describe and recognise the clinical features of patients who present with a diabetic emergency IM11.15Recognise the presentation of diabetic emergencies and outline the principles of therapy IM11.23Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis IM11.24Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	RD1.13 Describe the components of the PC & PNDT Act and its medicolegal implications	DR9.1 Classify, describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy
FRIDAY	RD 1.11 Describe preparation of patient for common imaging procedures (SGD/Tutorials)	RD 1.11 Describe preparation of patient for common imaging procedures (Clinical Postings)			OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway	CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices
SATURDAY	RD 1.12 Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure RD 1.13Describe the components of the PC & PNDT Act and its medicolegal implications (SGD/Tutorials)	RD 1.12 Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure RD 1.13Describe the components of the PC & PNDT Act and its medicolegal implications (Clinical Postings)			Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	EN 1. Describe the anatomy & physiology of ear, nose, throat, head & neck	EN 2.1Elicit document and present an appropriate history in a patient presenting with an ENT complaint EN 2.2Demonstrate the correct use of a headlamp in the examination of the ear, nose and throat EN 2.3Demonstrate the correct technique of examination of the ear EN 2.4Demonstrate the correct technique of performance and interpretation of tuning fork tests EN 2.5Demonstrate the correct technique of examination of the nose and paranasal sinuses including the use of nasal speculum EN 2.6Demonstrate the correct technique of examination of the throat,		SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	Self directed learning- PS3.7 -Enumerate the common organic psychiatric disorders, magnitude, etiology and clinical features.	FM 9.2-Non metallic poisons
TUESDAY	EN 1.2Describe the pathophysiology of common diseases in ENT EN 4.1Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of otalgia	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 4.1Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of otalgia EN 4.2Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of diseases of the external ear EN 4.3Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of AOM  EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		EN 4.33Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles and management of acute and chronic sinusitis	PE14.1 Discuss the risk factors, clinical features, diagnosis and management of Lead Poisoning,PE14.2Discuss the risk factors, clinical features, diagnosis and management of Kerosene ingestion	FM 9.3-Metallic poisons
WEDNESDAY	EN 4.38 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose correct investigations, and describe the principles of management of dysphagia EN 4.52 Describe the clinical features, investigations, and principles of management of diseases of esophagus	EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		OG 12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	OP1.4 Enumerate the indications and describe the principles of refractive surgery	CM 10.3 Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices
THURSDAY	EN 4.8Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of squamous type of COM EN 4.18Describe the clinical features, investigations, and principles of management of facial nerve palsy EN 4.19Describe the clinical features, investigations, and principles of management of vertigo  ---Principles of management of complications of COM	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 4.2Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of diseases of the external ear EN 4.9 Demonstrate the correct technique for syringing wax from the ear in a simulated environment EN 4.10Observe and describe indications for, and steps involved in myringotomy and myringoplasty EN 4.11Enumerate the indications, describe the steps, and observe a mastoidectomy EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy		IM11.16Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions IM11.17Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner IM11.18Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	AN13.4 Identify the bones and joints of upper limb seen in anteroposterior and lateral view radiographs of shoulder region, arm, elbow, forearm, and hand (Radiology & Anatomy integrated)	DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions DR9.5 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for various classes of leprosy based on national guidelines
FRIDAY	EN 4.22Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal obstruction EN 4.26Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of adenoids	EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy			OP3.1 Elicit document and present an appropriate history in a patient presenting with a “red eye” including congestion, discharge, pain	CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions
SATURDAY	EN 4.5Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of OME EN 4.8Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of squamous type of COM  EN 4.6Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of discharging ear EN 4.7Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of mucosal type of COM	EN 3.1Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 4.9Demonstrate the correct technique for syringing wax from the ear in a simulated environment		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	EN 4.22Principles of management of nasal obstruction EN 4.33Principles of management of acute & chronic sinusitis Principles of management of complications of sinusitis Principles of management of headache Principles of management of sleep apnea / snoring	EN 3.1Observing otomicroscopic examination EN 3.2Observing diagnostic nasal endoscopy EN 3.3Observing rigid / flexible laryngoscopy		SU28.16 Describe applied anatomy including congenital anomalies of the rectum and anal canal	OR 1.5 Aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip	FM 9.4-Ethanol, methanol & ethylene glycol poisoning
TUESDAY	EN 4.5Principles of management of OME EN 4.6Principles of management of discharging ear EN 4.7Principles of management of COM (mucosal)	EN 3.1Observing otomicroscopic examination EN 4.9Demonstrate syringing of ear in simulated environment EN 4.10Observing steps of myringotomy and myringoplasty		EN 2.11Describe and identify by clinical examination malignant and pre-malignant ENT diseases	PE14.3Discuss the risk factors, clinical features, diagnosis and management of Organophosphorous poisoning, PE14.4 Discuss the risk factors, clinical features, diagnosis and management of paracetamol poisoning, PE14.5 Discuss the risk factors, clinical features, diagnosis and management of Oxygen toxicity.	FM 9.5-OP, carbamates, Pyrethroids, Paraquat, Aluminium & Zinc phosphide poisoning
WEDNESDAY	EN 4.25Principles of management of nasal polyps EN 4.34Principles of management of tumors of maxilla	EN 3.2Observing diagnostic nasal endoscopy EN 3.3Observing rigid / flexible laryngoscopy		OG 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage	OP2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral	Seminar Topic: Basic Life Support
THURSDAY	EN 4.39Principles of management of acute & chronic tonsillitis EN 4.40Observing steps of tonsillectomy & adenoidectomy	EN 3.2Observing diagnostic nasal endoscopy EN 3.3Observing rigid / flexible laryngoscopy		IM11.14Recognise the presentation of hypoglycaemia and outline the principles on its therapy	An20.6 Identify the bones and joints of lower limb seen in anteroposterior and lateral view radiographs of various regions of lower limb (RD + AN integrated)	DR 9.6 Describe the treatment of Leprosy based on the WHO guidelines
FRIDAY	EN 4.12Principles of management of hearing loss EN 4.1Principles of management of otalgia 29.EN 4.6Principles of management of discharging ear EN 4.7Principles of management of COM (mucosal) EN 4.8Principles of management of COM (squamous) ---Principles of management of complications of COM---Principles of management of hearing impairment in children ---Principles of hearing aids & cochlear implantation	EN 4.11Observing steps of mastoidectomy EN 4.4Using otoscope and assessing mobility of TM EN 3.1Observing otomicroscopic examination			OP3.6 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium	CM 10.4 Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions
SATURDAY	EN 4.30Principles of management of epistaxis EN 4.35Principles of management of tumors of nasopharynx EN 4.18Principles of management of facial nerve palsy EN 4.25Principles of management of nasal polyps ---Principles of management of tumors of ear	EN 3.2Observing diagnostic nasal endoscopy EN 3.3Observing rigid / flexible laryngoscopy		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	EN 4.22Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal obstruction EN 4.22 Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal obstruction EN 4.25Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal polyps EN 4.33Elicit document, and present a correct history, demonstrate, and	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy		SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	OR 6.1 Clinical features, investigations and principles of management of degenerative condition of spine - (Cervical Spondylosis, Lumbar Spondylosis, PID)	FM 9.6-Respiratory poisons
TUESDAY	EN 4.33Elicit document, and present a correct history, demonstrate, and describe the principles and management of acute and chronic sinusitis EN 4.23 Describe the clinical features, investigations, and principles of management of deviated nasal septum EN 4.33Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles and management of acute and chronic sinusitis	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy	PE6.3 Discuss the general health problems during adolescence,PE6.5 Explain the Adolescent Nutrition and common nutritional problems,PE6.7 Describe the common mental health problems during adolescence	FM 10.1-Cardiac poisons & medicinal poisons
WEDNESDAY	EN 4.38Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose correct investigations, and describe the principles of management of dysphagia EN 4.52Describe the clinical features, investigations, and principles of management of diseases of esophagus EN 4.39Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose correct investigations, and describe principles of management of acute and chronic tonsillitis	EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		OG 16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis	Seminar Topic: Anatomy of larynx
THURSDAY	EN 4.18Describe the clinical features, investigations, and principles of management of facial nerve palsy EN 4.19Describe the clinical features, investigations, and principles of management of vertigo	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		IM11.22Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	AN25.7 Identify structures seen on a plain x-ray chest (PA view) (RD + AN integrated)	DR 9.7 Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma.
FRIDAY	EN 4.37Principles of management of Ludwig's angina EN 4.41Principles of management of abscesses of neck EN 4.39Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose correct investigations, and describe principles of management of acute and chronic tonsillitis	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy			OP4.3 Enumerate the causes of corneal edema	CM 12.1 Define and describe the concept of geriatric services CM 12.2 Describe health problems of aged population
SATURDAY	EN 4.12Elicit document, and present a correct history, demonstrate, and describe the clinical features choose the correct investigations, and describe the principles of management of hearing loss EN 4.21Describe the clinical features, investigations, and principles of management of tinnitus EN 4.39Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose correct investigations, and describe principles of management of acute and chronic tonsillitis	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	EN 4.42Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose the correct investigations, and describe principles of management of hoarseness of voice EN 4.22Elicit, document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of nasal obstruction EN 4.33Elicit document, and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles and management of acute and chronic sinusitis EN 4.25Elicit, document, and present a correct history, demonstrate, and	EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan	OR 7.1 Aetiopathogenesis, clinical features, investigation and management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's	FM 11.1-Animal poisons-Snake bite,scorpion sting,bee & wasp sting, spider bite
TUESDAY	EN 2.9 Choose correctly and interpret radiological, microbiological and histological investigations relevant to ENT disorders0 EN 4.47Describe the clinical features, investigations, and principles of management of stridor EN 4.39Elicit, document, and present a correct history, demonstrate, and describe clinical features, choose correct investigations, and describe principles of management of acute and chronic tonsillitis EN 4.48Elicit, document, and present a correct history, demonstrate and describe the clinical features, choose the correct investigations, and describe the principles of management of airway emergencies	EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 4.50Observe and describe the indications for, and steps involved in tracheostomy EN 3.1Observe and describe the indications for, and steps involved in otomicroscopic examination in a simulated environment EN 4.40Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 3.2Observe and describe the indications for, and steps involved in performance of diagnostic nasal endoscopy EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy EN 4.51Observe and describe the care of the patient with a tracheostomy		EN 4.53Describe the clinical features, investigations, and principles of management of HIV manifestations in ENT	PE6.10 Discuss the objectives and functions of AFHS (Adolescent Friendly Health Services) and the referral criteria, PE6.13 Enumerate the prevalence and the importance of recognition of sexual drug abuse in adolescents and children	FM 12.1-Poisoning- Tobacco,cannabis,amphetamines,cocaine,hallucinogens,designer drugs,LSD,solvents
WEDNESDAY	EN 4.49Elicit, document, and present a correct history, demonstrate and describe the clinical features, choose the correct investigations, and describe the principles of management of foreign bodies in the air and food passages	EN 3.3Observe and describe the indications for, and steps involved in rigid / flexible laryngoscopy		OG 16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	OP2.3 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatic cilia removal by	Seminar Topic: Oxygen Dissociation Curve Oxygen Delivery Devices
THURSDAY	EN 4.23Describe the clinical features, investigations, and principles of management of deviated nasal septum EN 4.24Enumerate the indications, observe, and describe the steps in septoplasty	EN 2.9Choose correctly and interpret radiological, microbiological and histological investigations relevant to ENT disorders		IM11.23Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis	AN25.8 Identify and subscribe in brief a barium swallow (RD + AN integrated)	DR 15.1 Identify and distinguish folliculitis impetigo and carbuncle from other skin lesions DR 15.3 Enumerate the indications and describe the pharmacology, indications and adverse reactions of topical and systemic drugs used in treatment of pyoderma
FRIDAY	EN 2.8Demonstrate the correct technique to perform and interpret pure tone audiogram and impedance audiogram	REVISION			OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	CM 12.3 Describe the prevention of health problems of aged population CM 12.4 Describe National program for elderly
SATURDAY	EN 2.13Identify, resuscitate, and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, throat, and upper respiratory tract) EN 2.10Identify and describe the use of common instruments used in ENT surgery	END POSTING ASSESSMENT FEEDBACK		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OP1.1 Describe the physiology of vision	OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision		SU29.1 Describe the causes, investigations and principles of management of Hematuria	OR 8.1 Aetiopathogenesis, clinical features, assessment and management of a patient with Post Polio Residual Paralysis	FM 14.17-Poisoning-Dhatūra,castor,cannabis,opium,aconite,copper sulphate,marking nut,nux vomica,calotropis
TUESDAY	OP5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis- STAPHYLOMAS	OP1.3 Demonstrate the steps in performing the visual acuity assessment for colour vision, the pin hole test		EN 4.8Elicit document and present a correct history, demonstrate, and describe the clinical features, choose the correct investigations, and describe the principles of management of squamous type of COM	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS,PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and evaluation,PE18.2 Explain preventive interventions for child survival and safe motherhood.	FM 14.17-Poisoning-Dhatūra,castor,cannabis,opium,aconite,copper sulphate,marking nut,nux vomica,calotropis
WEDNESDAY	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury- management of chemical injuries	OP1.3 Demonstrate the steps in performing the menace and blink reflexes		OG 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	SDL 1 : Airway Equipment
THURSDAY	OP2.6 Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis	OP2.2 Demonstrate the symptoms & clinical signs of Hordeolum externum/ internum, blepharitis		IM11.24Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	AN43.7 Identify the anatomical structures in 1) Plain x-ray skull, 2) AP view and lateral view, 3)Plain x-ray cervical spine - AP and lateral view, 4) Plain x-ray of paranasal sinuses (RD + AN integrated)	DR 10.1 Identify and classify syphilis based on the presentation and clinical manifestations
FRIDAY	OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates-	OP2.2 Demonstrate the symptoms & clinical signs of preseptal cellulitis and dacryocystitis			OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy	CM 15.1 Define and describe the concept of mental Health CM 15.2 Describe warning signals of mental health disorder CM 15.3 Describe National Mental Health program
SATURDAY	OP1.5 Define, enumerate the types and the mechanism by which strabismus leads to amblyopia	OP2.2 Demonstrate the symptoms & clinical signs of hemangioma, dermoid		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN41.1 Describe & demonstrate parts and layers of eyeball---- Development of eye	OP2.2 Demonstrate the symptoms & clinical signs of ptosis, entropion, lid lag, lagophthalmos		SU29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	OR 9.1 Aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	FM 14.1-Medicolegal report of an injured person
TUESDAY	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis -Congenital dacryocystitis	OP2.3 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion and trichiatic cilia removal by epilation		EN 4.11 Observing steps of mastoidectomy	AETCOM (Community Medicine)Module 3.5 Case studies in Bioethics (Fiduciary Duty) 1	FM 14.4-Medicolegal report on age estimation
WEDNESDAY	OP2.1Lacrimal surgeries	OP2.3 Demonstrate under supervision clinical procedures performed in the lid including: perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis,		OG 21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	OP9.2 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus	SDL 2 : Equipment for Regional Anaesthesia
THURSDAY	OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates	OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain		IM12.1Describe the epidemiology and pathogenesis of hypothyroidism and hyperthyroidism including the influence of iodine deficiency and autoimmunity in the pathogenesis of thyroid disease	AN43.8 Describe the anatomical route used for carotid angiogram and vertebral angiogram (RD + AN integrated)	DR 10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis DR 10.4 Describe the prevention of congenital syphilis
FRIDAY	OP7.4OP7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery-Endophthalmitis	OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre,			OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury	CM 16.3 Describe health management techniques
SATURDAY	OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina-Rhegmatogenous retinal detachment	OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including pupil abnormality, ciliary tenderness		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN41.3 Describe the position, nerve supply and actions of intraocular muscles	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment		SU29.3 Describe the Clinical features, Investigations and principles of management of urinary tract infections	OR 1.1 Principles of pre hospital care and casualty management of a trauma victim including principles of triage	FM 14.9-Skeletal remains examination
TUESDAY	OP5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis	OP3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment		EN 4.10Observing steps of myringotomy and myringoplasty	AETCOM (Community Medicine)Module 3.5 Case studies in Bioethics (Fiduciary Duty) 2	FM 14.11 & 14.12-Medicolegal examination of weapon examination including firarms & ammunition
WEDNESDAY	OP2.6 Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis	OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment		OG 22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking	AS1.1 Describe the evolution of Anaesthesiology as a modern specialty AS1.2 Describe the roles of Anaesthesiologist in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labour analgesia, in the resuscitation of acutely ill) AS1.3 Enumerate and describe the principle of ethics as it relates to Anaesthesiology AS1.4 Describe the prospects of Anaesthesiology as a career
THURSDAY	OP6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	OP4.10 Counsel patients and family about eye donation in a simulated environment		IM12.2Describe and discuss the genetic basis of some forms of thyroid dysfunction	AN43.9 Identify anatomical structures in carotid angiogram and vertebral angiogram (RD + AN integrated)	DR10.6 Describe the etiology, diagnostic and clinical features of non-syphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) DR10.8 Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the non- syphilitic sexually transmitted diseases (chancroid, donovanosis, LGV and herpes simplex) DR10.9 --- Describe the syndromic approach to ulcerative sexually transmitted disease
FRIDAY	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis,	OP6.6 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber			OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis	CM 16.1 Define and Describe the concept of Health planning CM 16.2 Describe the planning cycle
SATURDAY	OP6.4 Describe and distinguish hyphema and hypopyon	OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	OP7.1 Describe the surgical anatomy and the metabolism of the lens	OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract		SU29.4 Describe the clinical features, investigations and principles of management of hydronephrosis	OR12.1 Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip, Torticollis, c. congenital talipes equino varus	FM 14.14-Examination & report preparation of accused in rape/unnatural sexual offences
TUESDAY	OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis-Antifungals in ophthalmology	OP7.4 Enumerate the types of cataract surgery and describe the steps of extracapsular cataract extraction surgery, intra-operative and post-operative complications of extracapsular cataract extraction surgery.		EN 4.41 Describe the clinical features, investigations, and principles of management of acute and chronic abscesses in relation to pharynx	AETCOM (Community Medicine) Module 3.5 Case studies in Bioethics (Fiduciary Duty) 3	FM 14.15-Examination & report preparation of victim in rape/unnatural sexual offences
WEDNESDAY	OP6.6 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber-Antiglaucoma Medications	OP7.5 To participate in the team for cataract surgery		OG 25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management.	OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	AS3.1 Describe the principles of preoperative evaluation AS4.2 Describe the anatomy of the airway and its implications for general anaesthesia
THURSDAY	OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway--Papilloedema	OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment		IM12.3 Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function	AN51.1 Describe & identify the cross-section at the level of T8, T10, and L1 (transpyloric plane) (RD + AN integrated)	DR10.10 - Describe the etiology, diagnostic and clinical features and management of gonococcal and non-gonococcal urethritis DR10.11 - Describe the etiology, diagnostic and clinical features and management of vaginal discharge
FRIDAY	OP8.5 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway-- Optic neuritis	OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unocular & Binocular)			OP6.6 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber	CM 16.4 Describe health planning in India and National policies related to health and health planning
SATURDAY	OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina--Vitreous opacities	ASSESSMENT AND FEEDBACK		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM9.1 Define and describe the principles of Demography, Demographic cycle, Vital statistics	CM 9.2 Define, calculate and interpret demographic indices including birth rate, death rate, fertility rates		SU29.5 Describe the clinical features, investigations and principles of management of renal calculi	OR3.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	FM 13.1-Toxic pollution of environment & Its medicolegal aspects & toxic hazards of occupation and industry
TUESDAY	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs	CM 6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs		EN 4.44Describe the clinical features, investigations, and principles of management of benign lesions of vocal cord	AETCOM (Community Medicine)Module 3.5 Case studies in Bioethics (Fiduciary Duty) 4	FM 14.16-Examination & report preparation of drunk person
WEDNESDAY	CM 6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion	CM 6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion		OG 26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract- congenital cataract	AS4.1 Describe and discuss the pharmacology of drugs used in induction and maintenance of general anaesthesia (including intravenous and inhalation induction agents, opiate and non-opiate analgesics, depolarising and non depolarising muscle relaxants, anticholinesterases)
THURSDAY	CM 10.5 Describe Integrated Management of Neonatal and Childhood Illness (IMNCI) (Integration with Paediatrics)	CM 10.5 Describe Integrated Management of Neonatal and Childhood Illness (IMNCI), Home based new born management		IM12.4Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	AN51.2 Describe & identify the mid sagittal section of male and female pelvis (RD + AN integrated)	DR 11.1 - Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections
FRIDAY	CM 10.5 Describe Integrated Management of Neonatal and Childhood Illness (IMNCI) (Integration with Paediatrics)	CM 10.5 Describe Integrated Management of Neonatal and Childhood Illness (IMNCI), Home based young child management			OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract --Metabolic , Toxic and Complicated cataract	CM 17.1 Define and describe the concept of health care to community CM 17.3 Describe primary health care, its components and principles
SATURDAY	CM 10.2 Enumerate and describe the methods of screening high risk groups and common health problems (Integration with O&G)	CM 10.2 DOAP- Use of MCP card (antenatal, and postnatal care)		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM 10.2 Enumerate and describe the methods of screening high risk groups and common health problems(Integration with Paediatrics)	CM 10.2 DOAP - Use of MCP card (Newborn and youngchild care)		SU29.6 Describe the clinical features, investigations and principles of management of renal tumours	OR4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abcess and caries spine	FM 14.5-Autopsy Report preparation & analysis
TUESDAY	CM 10.3 Describe local customs and practices during pregnancy, childbirth,lactation and child feeding practices (Integration with OBG)	CM 10.3 Describe local customs and practices during pregnancy, childbirth,lactation and child feeding practices		EN 4.12Elicit document, and present a correct history, demonstrate, and describe the clinical features choose the correct investigations, and describe the principles of management of hearing loss	AETCOM (Community Medicine)Module 3.5 Case studies in Bioethics (Fiduciary Duty) 5	AETCOM Forensic Medicine-Module 3.3
WEDNESDAY	CM 10.3 Describe local customs and practices during pregnancy, childbirth,lactation and child feeding practices (Integration with Paediatrics)	CM 10.3 Describe local customs and practices during pregnancy, childbirth,lactation and child feeding practices		OG 26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	OP7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery.- IOL types and related complication	AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined) AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces
THURSDAY	CM 13.1 Define and describe the concept of Disaster management CM 13.2 Describe disaster management cycle (Integration with Gen Surgery)	SDL - CM 13.3 Describe man made disasters in the world and in India CM 13.4 Describe the details of the National Disaster management Authority		IM12.13Describe the pharmacology, indications, adverse reaction, interactions of thyroxine and antithyroid drugs	AN541. Describe & identify features of plain x-ray abdomen (RD + AN integrated)	DR 11.3- Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for dermatologic lesions in HIV
FRIDAY	CM 5.4 Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment	CM 5.4 Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment			OP6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions----.Neovascular glaucoma	CM17.4 Dscribe National policies related to health and health planning and the Sustainable Development Goals
SATURDAY	CM 5.2 Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	CM 5.2 Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM 20.1 List important public health events of last five years CM 20.3 Describe any event important to Health of the Community CM 20.2 Describe various issues during outbreaks and their prevention	CM 20.4 Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act and Human Organ Transplantation Act and its implications		Surgery SDL 1	OR1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shoc	FM 14.6-Demonstrate & interpret ML aspects from examination of hair,semen & other biological fluids
TUESDAY	CM 19.1 Define and describe the concept of Essential Medicine List (EML) CM 19.2 Describe roles of essential medicine in primary health care (Integration with Pharmacology)	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - (Clinicosocial case discussion)		Principles of management of trauma to face and neck	AETCOM Community Medicine TModule 3.2: Case studies in bioethics - Disclosure of medical errors 1	AETCOM Forensic Medicine-Module 3.3
WEDNESDAY	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - (Emerging diseases , Hospital acquired infection) Integration with General Medicine	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - (Clinicosocial case discussion)		OG 1.1 Define and discuss birth rate, maternal mortality and morbidity	OP1.5 Define, enumerate the types and the mechanism by which strabismus leads to amblyopia	AS9.3 Describe the principles of fluid therapy in the preoperative period AS9.4 Enumerate blood products and describe the use of blood products in the preoperative period
THURSDAY	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases- (Airborne, Vector borne diseases)-Integration with Microbiology	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - (Intestinal, zoonotic diseases)		IM1.2Describe and discuss the genetic basis of some forms of heart failure (SDL 1)	Radiology /Radiotherapy Tutorials/Seminars/Integrated Teaching Hours 7	
FRIDAY	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases- (Bloodborne diseases)-Integration with Pathology	CM 8.1 Discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases - (Contact diseases)			OP9.2 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus	CM 17.5 Describe health care delivery in India
SATURDAY	CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case - NTEP, NVBDCP, NACP- Integration with Pulmonology, Microbiology, Gen Medicine	CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case - NLEP, NPCB,- Integration with Dermatology, Ophthalmology		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case - RMNCHA, INAP, NHM, UIP- Integration with Paediatrics	CM 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case - NPSP, NMEP, Community Nutritional Programs -including ICDS - Integration with Paediatrics		SU22.2 Describe the etiopathogenesis of thyroidal swellings (SDL)	OR1.3 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries	FM 14.13-To estimate the age of foetus by postmortem examination
TUESDAY	CM 8.6 Educate and train health workers in disease surveillance,control and treatment and Health education	CM 8.6 Educate and train health workers in disease surveillance,control and treatment and Health education		EN 4.34Describe the clinical features, investigations, and principles of management of tumors of maxilla	AETCOM Community Medicine TModule 3.2: Case studies in bioethics 2	AETCOM Forensic Medicine-Module 3.3
WEDNESDAY	CM 3.6 Describe the role of vectors in the causation of diseases. CM 3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (integration with Microbiology)	CM 3.6, 3.7 - Entomology and Parasitology slide demonstration		OG 7.1 Describe and discuss the changes in the genital tract,cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	OP6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	AS8.1 Describe the anatomical correlates and physiologic principles of pain AS8.3 Describe the pharmacology and use of drugs in the management of pain AS8.4 Describe the principles of pain management in palliative care AS8.5 Describe the principles of pain management in the terminally ill
THURSDAY	CM 12.2 Describe health problems of aged population - Integration with Gen Medicine	CM 12.3 Describe the prevention of health problems of aged population, NPHCE, Palliative care		IM1.19Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram (SDL 2)	AN54.2 Describe & identify the special radiographs of abdominopelvic region (contrast x-ray barium swallow, barium meal, barium enema, cholecystography, intravenous pyelography & hysterosalpingography) (RD + AN integrated)	DR2.2 Describe the treatment of vitiligo
FRIDAY	CM15.2 Describe warning signals of mental health disorder - Integration with Psychiatry	CM 15.3Describe National Mental Health program			OP9.3 Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral	CM 17.5 Describe health care delivery in India
SATURDAY	FEEDBACK	ASSESSMENT		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN2.4Describe various types of cartilage with its structure & distribution in bod	OR 1.6 Closed reduction of shoulder dislocation / hip dislocation / knee dislocation		SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer( SDL )	OR1.4 Describe and discuss the Principles of management of soft tissue injuries	FM 14.19-To identify & prepare medicolegal inference of pathological slides
TUESDAY	AN2.5Describe various joints with subtypes and example	OR 3.2 Participate as a member in team for aspiration of joints under supervision		EN 4.33Principles of management of acute & chronic sinusitisPrinciples of management of complications of sinusitis Principles of management of headache	AETCOM Community Medicine TModule 3.2: Case studies in bioethics 3	AETCOM Forensic Medicine-Module 3.3
WEDNESDAY	AN 8.4 Orthopaedics Tutorials/Seminars/Integrated Teaching Hours 3AN8.4Demonstrate important muscle attachment on the given bone	OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy		OG 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury	AS10.1 Enumerate the hazards of incorrect patient positioning AS10.2 Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them AS10.3 Describe the role of communication in patient safety AS10.4 Define and describe common medical and medication errors in anaesthesia AS6.3 Describe the common complications encountered by patients in the recovery room, their recognition and principles of management
THURSDAY	AN8.6 Describe scaphoid fracture and explain the anatomical basis of avascular necrosis	AN18.7Explain anatomical basis of Osteoarthritis		IM4.16Enumerate the indications and describe the findings in tests of inflammation and specific rheumatologic tests, serologic testing for pathogens including HIV, bone marrow aspiration and biopsy (SDL 3)	AN54.3 Describe role of ERCP, CT abdomen, MRI, arteriography in radiodiagnosis of abdomen (RD + AN integrated)	DR12.1Describe the aetiopathogenesis of eczema DR12.2Identify eczema and differentiate it from lichenification and changes of aging
FRIDAY	AN10.12Describe and demonstrate Shoulder joint for– type, articular surfaces, capsule, synovial membrane, ligaments, relations, movements, muscles involved, blood supply, nerve supply and applied anatom	AN19.4Explain the anatomical basis of rupture of calcaneal tendo			OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury	CM 2.5 Describe poverty and social security measures and its relationship to health and disease
SATURDAY	SDL IM24.12 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of degenerative joint disease	AN19.6Explain the anatomical basis of Flat foot & Club foot		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	AN11.4 Describe the anatomical basis of Saturday night paralysis	OR2.2 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus		SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast ( SDL)	OR2.1Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle	FM 14.20-To record dying declaration
TUESDAY	AN17.2Describe anatomical basis of complications of fracture neck of femur.	OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain		EN 4.22Principles of management of nasal obstruction ---Principles of management of sleep apnea / snoring	AETCOM Community Medicine TModule 3.2: Case studies in bioethics 4	AETCOM Forensic Medicine-Module 3.3
WEDNESDAY	AN17.3Describe dislocation of hip joint and surgical hip replacement	OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopedic procedures like limb amputation, permanent fixations etc..		OG 36.2 Organise antenatal, postnatal, well-baby and family welfare clinics	OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)	WRITTEN AND VIVA
THURSDAY	PA33.1Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications of osteomyelitis	OR14.3 Demonstrate the ability to convince the patient for referral to a higher centre in various orthopedic illnesses, based on the detection of warning signals and need for sophisticated management		IM4.18Enumerate the indications for use of imaging in the diagnosis of febrile syndromes (SDL 4)	Radiology /Radiotherapy SDL 2	DR12.4Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of eczema
FRIDAY	PA33.2 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications and metastases of bone tumors	OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius			OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury	CM 5.6 Enumerate and discuss the important national nutritional Programs (Vit A, Iron, Iodine)
SATURDAY	SDL IM7.8 Discriminate, describe and discuss distinguishing articular from periarticular complaints	OR2.7 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability		Integrated Teaching	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	MI4.2Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of bone & joint infections.	OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient		SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (SDL)	AN18.6 Describe knee joint injuries with its applied anatomy	FM 14.21-To collect,preserve,seal & dispatch evidences-DNA samples,material evidene & viscera
TUESDAY	FM3.7 Describefactors influencing infliction of injuries and healing, examination and certification of wounds and wound as a causeof death: Primary and Secondary	OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fractures		EN 4.13Describe the clinical features, investigations, and principles of management of otosclerosis	AETCOM Community Medicine TModule 3.2: Case studies in bioethics 5	---
WEDNESDAY	FM3.12Regional Injuries Describeanddiscussinjuriesrelatedtofallfromheightand vehicularinjuries--PrimaryandSecondaryimpact,Secondary injuries, crush syndrome, railway spine	OR2.10Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur		OG 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section,assisted breech delivery; external cephalic version; cervicalcerclage (emphasis on caesarean section)	OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the funduscopic features in a normal condition and in conditions causing an abnormal retinal exam	
THURSDAY	IM7.6Describe and discriminate acute, subacute and chronic causes of joint pain	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrom		IM6.11Enumerate the indications and describe the findings for CT of the chest and brain and MRI (SDL 5)		
FRIDAY	IM7.18Enumerate the indications and interpret plain radiographs of joint	OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication			SDLOP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy) RHEG RD	CM 5.6 Enumerate and discuss the important national nutritional Programs (Other Community Nutrition programs)
SATURDAY	SDL IM24.14 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of common fractures in the elderly	OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot		SDLOP8.4 Enumerate and discuss treatment modalities in management of diseases of the retinaOP1.4 Enumerate the indications and describe the principles of refractive surgery	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	IM24.14Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of common fractures in the elderly	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fracture		OR14.1Demonstrate the ability to counsel patients regarding prognosis in patients with various orthopedic illnesses like a. fractures with disabilities b. fractures that require prolonged bed stay c. bone tumours d. congenital disabilities	OR13.2Participate as a member in team for Resuscitation of Polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage	FM 14.21-Collect, preserve, seal & dispatch exhibits for DNA
TUESDAY	PM5.1Enumerate the indications and describe the principles of amputation	OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome				
WEDNESDAY	PM6.3Describe the principles of skin traction, serial casts and surgical treatment including contracture release, tendon transfer, osteotomies and arthrodesis.	OR2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management		Revision	ASSESSMENT	
THURSDAY	PM7.7Enumerate and describe common life threatening complications following SCI like Deep vein Thrombosis, Aspiration Pneumonia, Autonomic dysreflexia	OR5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints		IM7.2Describe the genetic basis of autoimmune disease (SDL 6)		
FRIDAY	PM8.1Describe the clinical features, evaluation, diagnosis and management of disability following traumatic brain injury	OR13.1Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma			ASSESSMENT	CM5.6 Enumerate and discuss theNational Nutrition Policy and Integrated Child Development Services Scheme
SATURDAY	SDL IM7.21 Select, prescribe and communicate appropriate medications for relief of joint pain	OR11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves		ASSESSMENT	Integrated Teaching	Sports & Extracurricular Activities

TIME TABLE FOR THIRD PROFESSIONAL PART I - 2019 BATCH						
Week Day	8 AM To 9 AM	9 AM To 12 NOON		1 PM to 2 PM	2 PM To 3 PM	3 PM To 4 PM
MONDAY	Sessional Examinations	Sessional Examinations				
TUESDAY	Sessional Examinations	Sessional Examinations				
WEDNESDAY	Sessional Examinations	Sessional Examinations				
THURSDAY	Sessional Examinations	Sessional Examinations				
FRIDAY	Sessional Examinations	Sessional Examinations				
SATURDAY	Sessional Examinations	Sessional Examinations
